# Healing Workshop Registration Form

Dick and Dianne Evans are Healing Evangelists. God has called them to teach other believers about healing. They enthusiastically proclaim Jesus' healing message for today and how all are called to lay hands on the sick and see them recover. At their meetings, non-believers are encouraged through salvation and baptism in the Holy Spirit.

Dianne was miraculously healed when another believer laid hands on her in 1991. She came to a similar workshop suffering for years with a battle with Crohn's disease and she left totally healed.

During their Healing Workshops, the Evans will explain in simple terms how Jesus heals today through His believers. Scripture has many examples of Jesus and His disciples healing the sick. It also explains how every believer is called to do the same. Scripture also tells us when God's Word is preached, signs and wonders follow. Many are healed during these workshops by the hands of those participating at the meeting.

These are working sessions. Dress casually and come prepared to participate. Come expecting your healing. Bring your Bible, a means to take notes, and possibly a bag lunch for Saturday—we will take an hour break to eat.
