

April 2017 Testimonies

Friday morning I had a computer class at a gated community in town. I was helping a couple and they asked about my ministry. I was able to share with them and pray with each of them. He for a report from the doctor about cancer coming back in his nose. And her for healing of her nose after the removal of a growth outside of it. And for her sister for shingles pain she is continuing to experience. Then for him again for memory. I gave them each a healing cloth and explained it. Also taught on who is in them and about the authority and power they have to release to others. And they can pray for each other. It is unusual for him to come to a computer training session as he does not do much on it. But something told him he had to go today. Divine appointment? Then later in the day I met him at the bank. Another appointment! His wife had lost her healing cloth and I was able to give him another. Praise Jesus!

Received a good word about a woman we prayed for a couple of weeks ago with macular. Her husband reported that she is showing no signs of macular. Praise God!

I did get to lay hands on one woman today who was starting chemo treatments this week. Laid hands on her and commanded that spirit of cancer to go. This was new to her. Not sure she really believed what was happening as she is expecting to start her chemo treatments. But my expectation is different. She is healed in Jesus name. Amen.

Prayed for a man who had a stroke leaving his left side and speech with issues. We commanded all effects of the stroke to be reversed. For his brain to be restored. For strength in his legs.

Then for a woman with hip issues. Clicking and pain. We grew out her legs about an inch and commanded the pain and arthritis to go in Jesus name. After a few times the pain was almost gone and the clicking was gone. Thank you Jesus.

Tuesday evening that lady I prayed for last night was at service tonight and said she jumped out of bed this morning and then realized what she did. Had not been able to do that for a long long time. Pain almost completely gone as well. No more clicking in her hip. Yay God!

Sunday morning I prayed for a man with knee and toe issues. Laid hands on his knee commanding a total healing and for all pain to go. As he walked all pain left. Thank you Jesus

A woman with sugar issues. We commanded that her pancreas be kick started to produce the proper amount of insulin and for her sugar levels to be normal, in Jesus name.

A man with arthritis throughout his body and pain all over. Bound and cast out the spirit of arthritis and told the pain to leave. As he walked away and came back, he declared that he felt much better, that there was no pain. And after service he came back up and said he felt like a new man.

Prayed with a woman who had been diagnosed with congestive heart failure and was having trouble breathing while singing. Commanded a creative miracle, a new heart placed in her body. I reminded her that she has the blood of Jesus and commanded her breathing to be restored. Holy Spirit was all over her as He worked in her; tears pouring out of her.

Prayed for a woman with knee issues. The cushioning under the knee caps was gone. Commanded the cushioning to be restored and for her knees to be totally healed.

Prayed for a man with hearing and eyesight issues. Commanded the spirit of deafness and blindness to go.

Prayed for a man with back pain and as he walked away and came back there was no more pain. Thank you Jesus

Prayed for two teenage women that anything not of God be removed and taught them how to pray that for themselves.

Prayed for a woman with right shoulder problem. She texted in the request. We prayed for her she and she texted back that her shoulder was completely healed. Praise God.

Man with heart issues came expecting a creative miracle. We declared a new heart in him. Holy Spirit was all over him and we know he has that new heart flowing with the blood of Jesus.

Many needed the spirit of diabetes gone. We command their pancreas healed and producing corrects about of insulin and for sugar levels to be normal. Prayed in person, in proxy, and over cell phones.

Prayed with a young man over the phone who was experiencing extreme headaches.

We commanded anything not of God out of him.

Prayed for a woman with back pain and she was healed and could touch her toes, something she had not done for years.

Prayed for a man with cancer around his kidney. Commanded all of the cancer to be gone and the kidney healed.

Prayed in proxy for a person with sinus issues causing breathing problems

One of the workers at the food ministry had previously injured his left hand. it was a little swollen and he was in pain. Laid hands on him and commanded total healing and for all pain to leave. Thank you Jesus for the pain going.

Then a woman came up to me. She had pain in her back and a lesion on her back and I asked if I could place my hand there. And when I did, she winced in pain but allowed me to keep my hand in there. As I prayed commanding the lesion to be healed and for her back to be straightened and strengthened and for all pain to go, I could see her countenance change as the pain left. All pain was gone. Thank you Jesus she then asked for prayer for her right eye. I commanded the spirit of blindness out and commanded her eye to work properly. For her sight to be restored. When I took my hand away she said she could see better but not 20 20. Thank you Jesus for allowing me to lay hands on the sick and see them recover.

Then I delivered food to shut ins. Was able to pray with three of them.

The first was a woman with pain in her legs. I noticed she had a walker in the house. I just held her hand and commanded the pain out of her body, completely in Jesus name. Then I asked her to walk a little and come back and as she turned around she told me all the pain was gone. Thank you Jesus.

Then at the next house I went to, there was a woman in a wheelchair. I asked if she would like prayer, she said yes, pray for my grandchildren. I asked why she was in the chair. She told me she'd been in an accident years ago and when she walked she would fall over. I held her hand and prayed for the grandchildren and then commanded everything to be healed and restored from that accident. For her balance to be restored and for all pain to go, in Jesus name. Holy Spirit was all over her and I know he touched her.

When I went to see her neighbor and deliver lunch I asked him if he needed prayer. He said yes, he lives with his daughter and their finances are not well. He tries to do odd jobs but is having trouble with his heart. With permission I laid hands on his chest, prayed for his finances, the promise that God would supply all his needs. And then I declared a creative miracle in his body and called forth a new heart working properly and for good blood pressure, in Jesus name. Holy Spirit was definitely there as he received a touch.

Tuesday evening I prayed for a man with back pain. It left immediately. Prayed for his sister having surgery. And a woman I prayed for Sunday told me she received her healing when I laid hands on her for a new pancreas. Sugar levels normal since. Yay God

Thursday prayed with a woman with an autoimmune disease. For all her cells to be healed. For disease to be removed from her body. For all itching to stop. And it did. Thank you Jesus.

Saturday while having breakfast at the hotel in Maryland I noticed a man with a cane sipping his coffee looking off into the distance. I chatted with him for a little while and as I got up to leave I asked if he thought God could heal his eyes. He had told me about the issue with his retina being damaged and the cataracts being removed. He couldn't drive anymore. I told him I was a missionary and healing preacher and asked if I could lay hands on him. He said sure and I proceeded to call forth vision in those eyes, for the spirit of blindness to go, and for total healing of his eyes and perfect vision in Jesus name. I could feel The Holy Spirit's presence as he worked in this man and as tears fell from his eyes.

Another man with an Assembly of God T-shirt was observing what I was doing and said amen. He told me a little bit about his story, why he was traveling today. I asked if I could pray for him and his wife. He said sure and please pray for my father who is going into surgery next week. So we began praying for gentle surgeons that are guided by the Lord. I reminded him that man may do the surgery but Jesus is the healer. I then prayed peace for both him and his wife and told him that God was going to be revealing some new truth to them during this training that they were attending. They they should be open for it, to have ears to hear. Thank you Jesus for allowing me the opportunity once again to share your word with those who are strangers no more.
