

December 2014 Testimonies Florida

Monday attended prayer and praise in Englewood. The woman I prayed for Sunday was there and was having some pain in her hand. She was healed on Sunday and all pain was gone. She said she was praying about it all day. I touched her hand again and thanked Jesus a number of times. Pain left. I then explained that her prayers were good, but she needs to call on the authority and power of Holy Spirit and command the pain to go.

Home group Tuesday. I arrived late but in time for praise and prayer. Was able to lay hands on an elderly lady. Pain in hips from arthritis. We cast out arthritis and pain. Had her walk a little holding my hands. Slight pain left in left side. Prayed again. Almost all gone after just praying Jesus Jesus. Almost all gone. Had another woman lay her hands on the area with pain. All gone! Thank you Jesus. Anointing was very strong. I took out a handkerchief and we all laid hands on it while we were filled with His glory. Gave it to the elderly woman to put under her pillow. We had also prayed for a good nights sleep and for insomnia to leave. Nobody wanted to leave. We were all talking and talking under the strong presence of God.

After an exercise class at the YMCA on Wednesday morning I got to talking with one of volunteers at the desk. She knows me and spoke about a friend that had been at the healing class the Edgewater Church a couple of weeks ago. Well, this volunteer had back pain. I asked permission and put my hand on the small of her back. I commanded the pain to go along with sciatica and arthritis. Pain was almost all gone. She was ready to walk away but I persisted and prayed again repeating "thank you Jesus" and commanding the back to be straightened and strengthened and for the muscles, ligaments, tendons and nerves to be healed. All pain left. Thank you Jesus! Then I gave her a quick teaching on her authority and power she has because she is a born again believer with Holy Spirit residing in her. Yeah God!

At the New Season Ministries fellowship I was able to pray with one young woman who had pain in her lower back, legs were off about an inch. And then for her neck and shoulders, arms were off and went back and forth until they were adjusted.

A young boy came up to me and asked for prayer. Demons were trying to attach themselves to him. I prayed deliverance and told him what to do if they try to come at him at home.

At another meeting of New Season Ministries here in Port Charlotte I was beckoned by a woman across the room. She asked for prayer for her sister who spoke limited English. She was dealing with pain in her knees, shoulders, and hands. Rheumatoid Arthritis is what I was told. I had her sister pray for her and coaxed her in what to say. She spoke it Creole starting with growing out her arms and speaking to the pain and arthritis commanding it out. The shoulders were healed. Next the hands and after a few times of commanding the healing, the hands were able to open and close without pain. Next we checked the legs and they were in

alignment. Had her speak to the pain again in Creole. Then she stood up and we had her do deep knee bends. Haleluya! She had not been able to that in months. Praise Jesus!

On Saturday a team of us went to visit a woman whose head was in a brace. We spent a while with her and her husband who related their stories about the issues she and he were having. We laid hands on both of them. Her for arthritis, rheumatoid arthritis, osteoporosis, deteriorating bones, nerve damage, and numbness in her fingers on both hands. We cast out the spirit of inheritance because she spoke of her mother and grandmother having the same bone disease. The numbness in her hands was healed after a few prayers. We prayed for her husband who had a hernia, heart disease, and diabetes. Commanded the hernia to dissolve, a new heart, 100% open arteries, normal blood pressure, and for a new pancreas. Thanks you Father.

Saturday evening I attended Edgewater Methodist Church UMC. At the end of service a woman who had been kneeling at the prayer altar for a while got up and came over to me for prayer. She said she was addicted to nicotine and wanted to stop. She also mentioned her ears were full of wax and she was having trouble hearing. She thought satan was causing the hearing issue because he did not want her hearing God. I cast out the spirit of addiction as I laid hands on both of her ears and cast out the spirit of deafness and commanded the wax to dissolve and her hearing restored. God healed her ears and I gave her a teaching on what to do when she feels a need to smoke again. The ear were proof to her that the addiction had been taken care of as well. Praise Jesus!

EBC in Englewood for service on Sunday morning. After praise and worship there was a word in tongues that I interpreted. Praise God! Then I co-preached with a sister in the Lord. She had a brief message and I picked it up from there and went into a message the Lord gave me in the middle of the night a couple of days ago. He also gave me four words of knowledge on the way to church and during praise and worship. They were for neck pain, nicotine addiction, right foot, and blocked ears. Quite a few came forward at the end of my message and all received their miracle. Was able to teach some on authority and power of the believer as I was praying for people. People were healed of addiction, back pain, neck pain, shoulder pain, leg pain, diabetes, and more. I cannot remember it all.

After church we were invited by a couple of women attending EBC this morning to a home get together in Englewood and a few EBCers were there as well. When I was walking up to the house I received a word of knowledge for a right ear. While eating I had a prophetic word for Bea which she received. Before I left I was able to pray for a older man who was going to the doctor the next day for an operation to remove a growth in his ear they thought was cancer. Cast out spirit of deafness and cancer. Commanded a creative miracle in his ear and blessed him with a healing cloth. Then an older woman asked if I would pray for her allergies. Sure, I cast it out, too. And give her a healing cloth as well. Praise Jesus for using me!

A customer of my hairdresser had been told she has breast cancer. The hairdresser

scheduled me in for a haircut when this woman was also there. We both laid hands on her and we bound satan and cast out the spirit of cancer. She has a doctors appointment soon so we will see the results.

At a Men's Bible Study at Edgewater UMC, when talking about our authority in Christ, I was able to teach on healing by having the leader of the Bible study lay his hand on one of the members and command his headache to go. After a couple of times it left. When we were done with the study, another member asked for prayer for his sinus issues. Thank you Jesus!

Saturday evening I attended Edgewater Methodist Church. A man asked for prayer. He had lots of pain in his kidney because of stones. I laid hands where the pain was and command healing, for the kidney stones to dissolve, and for pain to leave. Much of the pain left immediately, then I just laid my hand on the same spot and said the name Jesus over and over. All the pain was gone, Praise God!

EBC in Englewood for service on Sunday morning. Was able to lay hands on a woman with diabetes and nuroprophy. Cast both out of her and expect to see a total healing in the days to come. Then I was able to lay hands on a man for back pain. Most of it left and then he was all done. Thanks you Jesus

At the Y on Monday morning and one of the women had a left rotator cuff issue. Some pain. I grew out her arms and commanded healing. All pain left. Thank you Jesus.

Was able to pray for a man walking with crutches on Wednesday morning. I held a door for him and asked if I could pray for him. I prayed a blessing over him. He was also a Christian and prayed for me as well.

Friday evening I was called to a friends house for prayer. When we arrived she was in excruciating pain in her right hip area. Three of us laid hands on her and commanded healing and for pain to leave. Pain level went from over 10 to about an 8. Had her get up and walk a little. This was impossible to do when we arrived. Then we prayed two or three more times including growing out her legs. Pain level was about a 2 when we finished and she could do all she could normally do. Praise Jesus!

At prayer in Englewood on Monday evening a woman came with a brace on her left wrist/hand. She took off the brace and I prayed for healing and for the pain to go. Her hand worked after we prayed and the pain was gone. Then I talked to her about praying for herself and the authority she has in Christ. Praise God!
