

## **December 2015 FL and KY Testimonies**

Tuesday at lunch I met a woman from my computer club class that I had prayed for previously. She was doing pretty good and I asked if she wanted a boost. She said, sure. So I laid my hand on her back and prayed for her. She quickly received and I could see her countenance change. Thank you Jesus.

One lady came up to me with pain in her body and specifically in her ovary area. I sat her down and her legs were off an inch. The Lord evened her legs as I commanded healing in her body and back and for all pain to leave. She got up and walked a little and all pain was gone. She texted me the next day: All my pain is gone...

I was able to pray for a young woman with back pain and an issue with her ankles/feet. Laid hands on her back and then on her ankles commanding healing--pain to go and ankles to be healed. Had her pray for herself as well. As she walked it out the pain left and her feet were much straighter. Thank you Jesus.

During the worship we stopped and a number of us laid hands on a man with liver problems. I spoke a creative miracle of a new liver into him. We also bound and cast out a spirit of cancer. Thank you Jesus for healing him.

Tuesday evening HDG at EMC. Small group, but we were asked to pray by a man not part of the group. He was having problems moving his neck and pain in his lower back. We laid hands on his neck and then his back commanding total healing, binding and casting out the pain and losing his neck muscles. As he walked forth the back pain left and he was able to rotate his neck where he was unable before. He mentioned that he had advanced arthritis. We then explained that it was a demonic spirit and it needed to be cast out. We bound and cast out the spirit of arthritis and commanded anything damaged to be restored, in the name of Jesus!

I was helping an elderly couple with their computer at their home. In the course of conversation I found out about the pain he was having because of arthritis. When we finished with the computer issues I prayed with both of them. I bound that pain and arthritis and cast them out of his body, I spoke to his mind and commanded it to be sharp with no memory loss. He was on pain meds so he was not experiencing pain at the moment, but I know Holy Spirit is working in him. Thank you Jesus.

While working on a computer the owner was telling me about the things his wife was

going through at home and the fact the he had rotator cuff issue and pain in his right shoulder. The doctor was suggesting surgery. I asked if I could pray for him. I put my hand on his shoulder and spoke to the pain and to the rotator cuff commanding healing. He said he felt heat and then I had him raise his arm and he told me he had not been able to do that for a while and that all the pain was gone. We prayed together for his wife and he went home with a fixed computer and a smile on his face. Thank you Jesus.

A gentleman told us he wanted prayer for what he thinks is a heart problem. He was getting little twinges in his chest and other symptoms. In prayer the Lord nudged him to ask for hands to be laid on him tonight. I felt led to command a creative miracle in his body. I put my hand on his chest and commanded a new heart, valves, and arteries. For all pain and symptoms to leave. He felt something happening throughout his body and we thanked Jesus for what had just happened, for the healing he just received.

Friday evening prayer with a man with cancer. He was in surprisingly good spirits after having a full day of chemo treatment. Prayed with him commanding the spirit of infirmity to be bound and to leave. And for all damaged parts in his body to be renewed. For complete restoration, in the name of Jesus.

Before church a woman came up to me with a testimony. When I put my hand on her shoulder the other night a pain in her left side left. Then another woman told me she was in pain in her left lower back and asked me to pray for her. With permission I put my hand where the pain was and said nothing. I just rested my hand there for a few minutes. I said: "Thank you, Jesus" and removed my hand. All her pain was gone and she was swaying back and forth under the power of the Holy Spirit. Thank you Jesus! Later on at lunch a woman was telling me that when she put her head back she would have pain and vertigo. I laid my hands on her neck and commanded her brain stem to line up with the top of her spinal column and for all pain to leave. Then I bound that spirit of vertigo and commanded it to leave. When I removed my hands the right side was great but the left still had some tightness. I placed my hand back on the left side and rested it there for a few minutes. When I took my hand away the left side was fine and as she tipped her head way back she had no sign of vertigo. Praise Jesus! Then a young man asked for prayer in his legs and knees. I had him sit down and one leg was shorter than the other. The Lord grew it out to be the same length as I commanded healing in his legs and knees. His legs were healed, thanks to Jesus!

Attended a Christmas potluck/party and before it started I was able to pray for an elderly woman with hearing problems and with pain in her knees. While in line for food an older man was telling me about his wife in a nursing home. I held his hands and we agreed in

prayer for her. I called forth a creative miracle and commanded a new pancreas in her body and for her sugar levels to be normal. Also for the fat cells to dissolve and for her to lose weight. Thank you Jesus for your faithfulness.

A woman had broken her little toe which was swollen and not able to move. She is now able to press down on it and move it. Believes swelling will be down in the morning. A man had numbness in his arms. Jesus grew his arms out so they were even and healed his nerves in the arm. No more numbness. A woman had pain in her knees. After hands were laid on her all pain was gone. A man was having pain in his back and when prayed for the pain went up to his neck. This told those praying that they were dealing with a spirit. They bound and cast it out. He visibly shook and all pain left. Thank you Jesus for working in the group tonight demonstrating your awesome power.

Wednesday evening at a Christmas party I received confirmation that the man with the back issues last evening is fully healed. Also to the man with the numbness in his arms is fully healed. And a text came this morning from the woman with the broken toe. All swelling was down when she got up this morning and she was able to wear shoes she could not fit into the day before. Praise Jesus!

At a street ministry I was able to pray with a homeless man. He had knee pain, sciatica pain, and back pain. I laid hands on his knee and then his sciatica and back. When finished most pain was gone and he asked if he could hug me. After the hug I made sure he had Jesus in him and he did. So I reminded him that he had all the power and authority of Jesus and to lay hands on himself and command his healing. Praise Jesus.

Sunday morning in KY I was able to go up front with a number of others to lay hands on the sick. I laid hands on the pastor as the elder prayed know that the healing anointing was flowing through me to the pastor and others. Thank you Jesus.

Went to the House of Blessings and saw all my friends there. They were happy to see me again and surprised because I had left in September with the expectation of not returning until early summer. Prayed for one man who was having trouble with his legs. I commanded the pain to go and when he stood up, all pain left. Thank you Jesus. I prayed with a couple. I blessed them and she was having some kidney problems. Doctor saying dialysis. As I laid hands on her and commanded a new kidney into her body, Holy Spirit came all over her and she started to cry. I know the Holy Spirit healed her right then. I blessed a number of other people this morning and able to pray healing into them while blessing them. Another man asked for prayer for a job. He also had pain in his ankle where there were pins placed. We commanded that pain to go away and

most of it left. Then when I had him lay hands on himself the rest of the pain left. Thank you Jesus.

Tuesday morning back to the HOB to serve. Was able to bless many with encouragement and healing. Laid hands on woman with disc issues and pain in her back. After commanding healing and casting out pain all back pain left. Thank you Jesus. Prayed for a man's jaw. Prayed in proxy for a woman with leg strength issues; trouble walking. The husband told me that she was asking for me a couple of days ago. She wanted to know if he had seen the "healing preacher".

Great message and worship at an outreach ministry. When I got up to leave a man I had prayed for on my summer trip reminded me that I had prayed for his legs and he is still pain free. He asked me to pray with his wife. Her head was going round and round and aching. I laid my hand on her head and commanded complete healing. All the sensations left immediately.

When the morning started a woman came up to me and said her head was hurting. I laid my hands on her head and the headache left. Later on a woman was experiencing neck pain and an issue with her lungs. Laid hands on her neck and command the pain to leave and for the lungs to be healed. When I took my hands off of her neck the pain was gone and her lungs were clear. A man had me lay my hand on the top of his head. The headache left. A lady who was here yesterday came without her son today. I found out he is thirty and has schizophrenia. We prayed and I bound and cast out that spirit. I gave her a teaching on praying for him at home. I prayed for a couple. Jesus took her pain away and she asked me to pray for her husband who has alzheimer's. I laid my hand on his head and commanded that disease to go. Prayed for a woman whose daughter is suffering with many things. We bound them and cast them out. Thank you Jesus. There were others but I cannot recall them all.

I prayed for a woman who said she had diverticulitis and bowel issues. I prayed for her and for the pastor's two brothers who have both been diagnosed with cancer. We bound and cast those diseases and the spirit of death of of them. Thank you Jesus for using me wherever you place me.

At the end of an evening service they asked me to come up as they prayed with people. One asked for prayer for his niece who in depression. I reminded us that Jesus told us we would cast out demons and lay hands on the sick and they would be healed. I bound and cast out a spirit of depression over this young girl. I thank you, Jesus for bringing her out of this depression and restoring her to the talkative and happy girl you made her

to be. A man came forward with a pain in his lower back. I placed my hands on his back and bound and cast out the spirit of pain. I commanded complete healing in his back and as I did all pain left. Praise Jesus. Then I was able to bless a man who did not want to come forward for prayer. God blessed him and when finished he stood up and gave his testimony. Praise God.

Was able to pray for a man with some neck pain. After a couple of shots his pain was 99% gone. Thank you, Jesus
