

July 2015 New England and KY Testimonies

I went to the soup kitchen again on Wednesday. Less people there today as it was the first of the month. Got to talk and pray with a number of people that I've prayed with before. The man that I had prayed for his back for the last two days did not need prayer today. Praise God, he was feeling much better. Noticed one lady sitting alone and asked if she wanted prayer. She spoke of aches and pains but nothing specific. I released the healing power of Jesus into her. As I started to pray for her she mentioned things that she was dealing with so I commanded healing of each as she brought them up and a cast out pain in the name of Jesus. I could see Holy Spirit all over her as the pain totally left. Thank you Jesus.

I was able to pray for some people tonight church after the message was brought forth. The pastor came up front with me and called people up who needed prayer. One man came forward with issues with his heart; pain in his chest. I laid my hands on him and commanded his heart to be totally healed and for the valves to be working properly with the arteries fully opened up and flowing at 100%. I bound pain and cast it out of his body. I asked him what he was feeling and he said he was feeling much better, thank you Jesus. And then the pastor asked me to pray for him. He was having pain in his joints. I bound and cast out the spirit of arthritis and the spirit of pain and he told me he felt light as a feather. A woman came forward with tears in her eyes and the Lord had a word for her. I prayed peace over her. Holy Spirit was all over her. Praise God. I was also able to prophesy over two young boys probably about five years old, one to be a preacher and the other a gospel singer playing a guitar. Thank you Jesus for allowing me to minister in healing and prophecy tonight.

Preached on Sunday morning. Told them a little about the two mission trips this year and tied that into the freedom we have in this country and more important the freedom we have in Christ. I testified to a number of miracles and healings I witnessed in South Africa and the Philippines. Taught on who they are in Christ and that Holy Spirit is in them and they do not have to do anything to earn it. Handed out a printout of who they are in Christ suggesting they read them frequently and even memorizing them, Jesus died for them on the cross so they could be free--He came to set the captives free. While going through the testimonies I did a brief teaching on the difference between a miracle, instant healing, and a progressive healing. I ended in a call for people to come to be healed. I asked how many were taking medicine of some type. All raised their hands. All either came forward or I went around to them later. All were given the chance to have an encounter with the one true God. Here is quick recap of some of the issues God took care on today. A woman with pain all over body, arthritis, and two blocked

arteries. As I was laying hands on her head she felt warmth, peace, joy; she felt Holy Spirit touching her giving her chills up and down her body. I bound and cast out pain and arthritis. All pain left. Then I did a short teaching on the enemy trying to come back and steal away her healing. And how she has the authority and power in her to speak to the enemy and stop him. When we use the name of Jesus the demons have to flee! Something was said about deliverance so I also gave them a brief teaching on the four steps of deliverance using anger as an example. As it turned out a number of them were dealing with anger. Moved on to the next person who had neck pain and fibromyalgia pain throughout her body. I placed my hands on her neck, bound pain and cast it out of her neck and body. All pain instantly left. Then I bound and cast out fibromyalgia and the pain in the rest of her body ceased. There was a woman with cataracts and pain in her body. I grew out her arms and legs and bound and cast out the spirit of blindness commanding the cataracts to fall off her eyes. She immediately was able to see better out of both eyes. They brought a little boy, 24 days old, to me. He had hearing problems in his right ear and was going to be seen by a specialists this coming week. I cast out the spirit of deafness and commanded the parts of the ear to be totally healed. Another woman was dealing with arthritis and a thyroid issue. We called forth a new thyroid and bound and cast out arthritis and pain. Pain left. There were more that I cannot remember. Thank you Jesus for healing these your followers.

Back to the House of Blessings on Monday morning. Fellowshiped with those being served today. One woman we prayed for favor in a job situation had her interview this morning and she got the job. Praise God. As soon as she has a month's worth of paychecks she will be getting her own apartment with another woman at the soup kitchen. Being blessed she plans on blessing this other woman with a safe place to live. Met another man this morning. He is in his early eighties and has a wife at home with bones that easily break, ankles and feet that are swollen, and screws in her foot. I prayed for her and then he started to tell me of the things he was dealing with like arthritis and alzheimer's. It seems his mother and his brother both had the same. I prayed binding and casting out alzheimer's, arthritis, and the spirit of inheritance. Then the man sitting with him told me the doctor told him he had cataract. I prayed for that spirit to go and for his eyes to be totally healed. Thank you Jesus.

At the House of Blessing again this Wednesday morning and prayed with a man with pain in his legs, arms, and back. Also dealing with a lot of other issues. I released the healing power of Jesus into him, prayed with him, and instructed him and what to do daily to receive his full healing. Prayed with one of the workers who had a patch on his left eye. Somehow he got cuts on his retina. I commanded the pain to cease and it did. Prayed for complete restoration of his eye. The man that I prayed for a week ago that

was in the mobile chair came in today without the chair walking without pain. Another man was blind in his right eye. I bound pain and blindness. Then I called forth restoration of his sight. After two or three times he was able to see my fingers. I released the healing power of Jesus and know that his sight is going to be getting better with each day. Was able to pray blessings over a number of other people as well. Thank you Jesus for using me again this morning.

At a restaurant this morning I was able to pray with a woman who was beginning to show early signs of dementia. We bound that spirit and cast it out commanding restoration of every brain cell and for her short and long term memories to be perfect. Thank you Jesus.

At breakfast on Tuesday I was at a Cracker Barrel and was led to ask the waitress if I could pray for her. The joy on her face when we finished was so worth it! Thank you Jesus for the nudge to do that.

Thursday I spoke at a women's Bible study in Barrington, RI. I mixed teaching on healing and the Holy Spirit with testimony about the African and Philippine mission trips. Also spoke about the plans for mission trips and teaching here in America. At the end, before we had lunch together, I was able to lay hands on four of the women. The first was an older woman with right knee pain and swelling. God grew out her legs about two inches and bound and cast out pain. After getting up and walking the pain was gone, just some discomfort remaining. Another had arthritic pain in her hands, arms, and elsewhere. I bound and cast out arthritis and pain. When she flexed her fingers all pain was gone. You could see the results of the pain leaving in her face. She kept opening and closing her hands without pain. Gave a teaching on the difference between a miracle and a healing and what to do when satan tries to tell you the healing did not happen, when the pain tries to come back. The third was having right shoulder pain. I had her stretch out her arms as they were about an inch off. I commanded them to be even and bound and cast out pain once again. When she moved her arms all the pain was gone. The last woman had pain under her right arm. We bound and cast out the pain and had her lay hands on herself as well. After several times the pain left and all she had left was a dull ache. Thank you Jesus for the opportunity to testify and teach this morning and thank you for the demonstration of your healing power in their lives.

Friday night I was invited to attend a Bible study in RI and I was able to teach a little on spiritual gifts during their Experiencing God study. Also laid hands on a young man with pain and tendonitis in his right shoulder. Grew out his arms and broke off the spirits of pain and tendinitis. Not much of a difference. Had him lay his own hands on his shoulders and pray again, twice. Pain gone. A little soreness was left. Taught on what to

do if it tries to come back. Thank you Jesus for a great night and for moving in our midst.

Was invited to come to a pastor's home for an afternoon time to share about our ministry and teach a little followed with laying on of hands. There were four couples and two singles present. I shared a number of testimonies with them and some of the mission experiences. Taught about our authority and power. Taught on Mark 16 and was surprised they did not know about this version of the Great Commission. The pastor was the first to want prayer for diabetes and neuropathy in both feet. Pain in his feet completely left when I grew out his legs and commanded the spirit of pain and diabetes and neuropathy to go. Also commanded a new pancreas. Thank you, Jesus. Then I prayed for a woman with arthritis commanding it and pain out of her body. And for the removal of bone spurs in her back. Another for pain in her tail bone. Then for cataract in the left eye and colitis. And lastly for a young woman who had a number of seizures resulting in eyesight and depth perception problems. She also had bad case of diabetes and neuropathy to the extent that she had had all toes amputated from both feet. We commanded a new pancreas and for diabetes and neuropathy to go. Also for regeneration of the brain cells damaged by loss of oxygen and for the proper connection between her eyes and her brain.

Wednesday I had lunch in Kennebunkport, Maine with friends. Had to park about a mile away from the restaurant so we walked into where the restaurant was in the middle of town. About halfway there my friend was experiencing lots of pain in his legs. I found out he had a blood clot and that was what was causing the pain. I asked if I could pray for him and he said yes. I laid hands on his leg and in Jesus name I bound the pain and commanded it to go and commanded the blood clot to dissolve. When I let go he told me all the pain was gone. He walked the rest of the way and when we sat down at the restaurant he said he did not know what I did but all the pain was gone. I told him it was not me but Him! Thank you Jesus.

Back in KY and back to the House of Blessings. They were happy to see me back from my trip. I was able to pray for one couple. She was saying she could not lift her arms high enough to brush her hair. I laid hands on her shoulders and commanded healing. She was then able to raise her hands high and touch her hair. Her husband had back pain and as I laid my hands on his back he could feel the heat from Holy Spirit. Thank you Jesus.

Wednesday I went to the House of Blessing. A man's wife asked me to pray for him. Back pain and leg pain. I had him sit down and stretch out his legs. The left leg was

about one inch short. The Lord grew out his leg as I commanded healing in his legs and back. No pain left. He was able to touch his toes with no pain for the first time in twenty-five years. Then I prayed for his wife. She also had back pain. All pain was gone and she too was able to touch her toes. I prayed for a very thin lady for strength. She had an open blister on her foot and was in pain. The pain left. Then she showed me her right hand. The little knuckle was swollen and she was unable to bend it. Two quick prayers and it was healed. A new couple was there for lunch and after talking with them I asked if they needed prayer. Oh yes, they said. He had a problem with his pancreas, not diabetes. I call forth a creative miracle and commanded a fully functional and new pancreas. She was dealing with diabetes, foot pain, and arthritis all over. Cast out the arthritis and diabetes and pain. Had her walk back and forth. After two quick prayers there was no more pain. Prayed with a woman in proxy for her husband for neuropathy in his feet and sleep. I cast out the spirits of neuropathy, pain, and insomnia. She was the woman I had prayed for a couple of days ago for her shoulders. She could not brush her hair and her shoulders were still working fine and she can brush her own hair now. Another woman came up to me for prayer and I cast out a spirit of epilepsy. Felt heat in her body as Holy Spirit was working in her. Tears. Prayed for another woman. God healed her husband a few weeks ago and got him up out of his motorized wheel chair walking on his own. She is taking all kinds of pills for a bipolar issue. We prayed with her for deliverance from that spirit and she felt it leave and a great peace enter into her. Then I prayed with her husband and cast out insomnia and cast of its friends. Blessed a number of people. Thank you Jesus for using me in such a mighty way today. Thank you for blessing your children.

Thursday evening I preached on our identity in Christ. After I finished the message I had an alter call for salvation and for healing. A woman came forward for prayer. She was having back pain and chest pain. Also had kidney issues. A quick prayer binding and casting out pain and all back pain left. She still had chest pain, so we prayed again and all chest pain left and she was able to breathe deeply. Taught briefly on what satan would try to do next and how she had the authority to come against any pain that tried to return. She asked if she could stand in for a friend who had an aneurysm and was scheduled for open heart surgery. We agreed in prayer for him and commanded the aneurysm to be removed and for the arteries to be free of obstruction and flowing freely. Also for the valves to be working correctly and freely. A man came up with lung pain. It was so bad that he was unable to sleep at night. We bound the pain and cast it out and commanded healed lungs. All pain instantly left and he was able to breath deeply. A young girl came forward with neck pain. A quick prayer and all pain left. Another man came forward with emotional issues. We prayed him through a quick deliverance prayer and he felt something lift off of him. One of the men I had prayed for at the House of

Blessing on Monday testified that the Lord grew out his leg and he felt it growing. And the pain that he had in his back left and he was still pain free. He demonstrated that he could touch his toes and said he had not been able to do that for twenty-five years. Thank you Jesus for healing all tonight.
