

June 2015 Florida and Kentucky Testimonies

I noticed a woman rubbing her right leg during praise and worship tonight. I went over to her and asked her what was wrong. She said she had a feeling of like fire in her legs and pain. We prayed a number of times commanding the pain to go. It finally left and she can walk without pain. About 15 minutes later she was rubbing her leg again. I went over and prayed some more and then felt that I should grow out her legs. I had her sit down in a chair and stretch her legs out. Her left leg was about 2 inches longer than the right. I began to pray commanding the leg to grow out. Well it did. The left leg grew out two more inches. We continued to command the legs to grow and be even. The right leg grew to become even with the left. We commanded all pain to go and had her stand up. The knots in her legs were gone and the pain gone. thank you Jesus.

Saturday evening I stopped after church to visit a high school friend in the hospital recovering from a stroke. Part of the results were loss of hearing in his right ear. He also had tinnitus for years due to the work he had done in the past. I commanded the spirit of deafness out and for complete healing and released the healing power of Jesus into him. Waiting on his complete recovery. Thank you Jesus.

Stopped to see a friend at his house Monday morning and found out the wife was dealing with bronchitis and pneumonia. Prayed with him for her complete recovery.

Was at a woman's house today helping her with her computer and discovered she had two knee replacements. She was experiencing pain in both knees and clicking in her right knee. In addition there was a lower back pain issue. I had her sit down and stretch out her legs. The right leg was about one inch longer than the left. I commanded the back to be healed and for all pain to go. Then I had her get up and walk a little and after two tries all the pain in the back was totally gone. Next we laid hands on her knees and commanded pain to leave and for any damage done by the knee replacement surgery to be repaired. After a few tries having her get up and walk around a bit each time all the clicking was going and all the pain was gone. Thank you Jesus! She was a believer so I instructed her what to do if that pain or clicking tried to come back. I reminded her who lives in her and that she has His authority and power to speak directly to the issues. Praise God.

Monday evening attended prayer and praise and was able to pray for two people and command a creative miracle, both for a new pancreas. Praise to Jesus.

One of the musicians tonight hurt himself moving the equipment in. Pain in his right back from shoulder down to hip. He laid hands on himself with a little relief. Came to me for prayer. Simple prayer and hand laid on his back and in two shots totally healed. Yeah God!

Saturday I was at some friends house and as I was about to leave I asked the woman if she wanted me to pray for her. She said oh yes I have pain in my neck. The last time I visited them the Lord healed her neck and took away the pain. Now two months later it was back. I commanded the pain to go while I laid my hands on her neck. She felt the Holy Spirit working as I released her and she almost fell over under His power. She was instantly healed. All pain going. I then confirmed that she was indeed born again. I asked her who lived in here and she responded Jesus. I then explained to her how satan is a thief and he will try to come back and sneak in and destroy what has happened. But if she felt any pain again that she needs to lay hands on herself and command in the name of Jesus for that pain to go. And it has to go. Thank you Jesus for using me for healing this woman and for allowing me to teach about how you move into her life.

Was an exciting evening at church tonight. Was able to pray for a number of people as Holy Spirit moved among us. One woman had pain in the back of her head. She attributed the headache to fibromyalgia. I asked if she would like to be healed of that as well. She said yes and I commanded that spirit out of her and for all pain to go. She felt the pain in the back of her head go. Another had pain in her knees from deteriorating cartilage the doctor was attributing to age. I grew out her legs (one was an inch shorter than the other) and commanded a creative miracle for the cartilage to be restored and for the pain to leave. Another was standing in for a man with serious depression. We cast it out and filled him in proxy with the Holy Spirit. A woman stood in for another woman with a knee busted up beyond repair according to the doctors. We laid hands in proxy and commanded a creative miracle and for all damage to be restored. The woman went down in the spirit. Before the evening began two of the musicians had headaches and they were instantly healed. Prayed for others for other issues; too many to remember them all. And many others were being prayed for as well. Thank you Jesus; all the glory to Him!

Saturday afternoon went to visit a friend at a rehab place here in port Charlotte to encourage and lay hands on him. The doctors claim he has lung cancer. They say he has a couple of tumors growing. Chemo and radiation had reduced them by 85% and now they have changed shape are growing. He has had radiation for cancerous growths on his right brain that affected his balance and left leg and knee. We release the healing power of Jesus, the life of Jesus into him and then cast out spirits of cancer death and

pain. Laid hands on his head and his knee. Pain in his knee was gone after a few times of prayer the last being by his wife. When finished he was able to lift his left leg considerably higher than when we started and the pain was gone! Evidence of Holy Spirit working in him for total restoration. Thank you Jesus!

Preached in Monticello, KY on Sunday morning. Talked about mission trips and taught on who they are in Christ. Dinner afterwards with the Pastor and his wife. At the end of the service I called for people needing healing. Four women came forward with pain somewhere in their bodies. The first had pain in her feet and a knot under her left foot. We cast out the pain and commanded the knot to leave. She felt heat in her foot and I explained that was Holy Spirit working, healing her, removing the knot. All pain was gone. Taught them about not letting satan take away what Jesus has done. They were all born again and we talked about who is in them and the authority they have. If that pain or condition tries to come back that is the enemy trying to take away what God has done. Do NOT let him. Use your authority and tell it to go, in Jesus name. It has to go. The next lady was dealing with spine anosis and a kidney issue. We cast out the spirits of spine anosis and pain and spoke a new kidney into her, a creative miracle. She felt a tremendous peace come over her as Holy Spirit worked the healing in her body. All pain was gone. Another woman had arthritis and a liver problem. Also pain in her knees. A quick prayer commanding the arthritis and pain to leave and for the liver and knees to be healed and all pain left. She felt heat as I laid my hands on her. Then a woman with very swollen feet came forward. She was a young woman and large. She told me that she has lost 70 pounds and then stopped losing. The doctors cannot figure out what the issue is with her feet, the swelling or the pain. I spoke to the fat cells in her body and commanded weight loss, to the swelling in her feet, and bound and cast out the pain. I had her walk a bit and all pain was gone. Then I felt let to ask if anyone wanted an impartation from me for boldness to reach out to others. A man came forward. Holy Spirit was all over him. As I imparted to him tears of joy were streaming down his face. When I finished he told us he had had a dream last night about a healing minister coming to church that would pray with him. Only the pastor (and Jesus) knew that I would be there today. Praise God! After service a woman approached me for pray for her son. She stood in proxy for him as we prayed for a new liver for him and for the Lord to send someone to him to lead him in the right direction. Thank you Jesus for using me today!

Went to the new [House of Blessing in Monticello, KY](#) today. I was able to sit and eat with a number of "customers" and to reacquaint myself with some I knew from before. I prayed with too many to count them all. One man was in a motorized wheelchair because of back pain. I prayed with him and in three shots he was able to walk without

pain. He was running and dancing around happy that the Lord took away all his pain. Others received relief from arthritic pain and lower back pain. Prayed a blessing over many as well. They were pleased to see me back from FL and we had some good godly conversation around the tables. Thank you Jesus.

Attended community prayer this evening. After pray time I was able to pray deliverance over a lady and teach the four steps. Prayed for a release of the healing power of Jesus in another woman, for her total healing, and He gave me a word for her. She confirmed that she has had the same word a number of times. And God gave her a word as I was laying my hands on her. Praise God!

Back to the HOB on Tuesday. Larger crowd today. Each day is hosted by a different local church so I got to see workers I had not seen since last year. One woman worker told me about an accident she had falling down the steps of her church a while ago. She still had pain in her back and hips. Well until I laid hands on her and commanded the pain to leave. I released the healing power of Jesus in ot her and she felt heat as Holy Spirit worked in her body. Checked on some that I had prayed for yesterday. One needed another touch. Prayed a blessing over many which of course included thanking Holy Spirit for coming into them and healing any issue they may have had. One woman had a headache that has been with her for days. I had her husband place his hand on her head as I commanded the spirit of pain to leave and for the headache to go and not return. It instantly left. Thank you, Jesus.

Attended a service on Tuesday night. A woman came up to sing. She was on crutches and needed help from the pastor and one other man to get to the microphone. She testified that she was scheduled for surgery for her knees but the Lord told her to cancel. My spirit jumped the whole time she was up singing. I was fighting with myself. Was that Holy Spirit or my own thoughts? Then while the next person was coming up the pastor pointed to me and asked if I had something to share. Got me! I told him I had just come back from two overseas mission trips where God performed many miracles. I told him I felt I was to lay hands on her knees before she leaves. He asked me to come up right away and pray for her. It was a little different with him praying at the same time, but I pressed in and commanded the spirit of pain to leave. I spoke to the muscles ligaments nerves and tendons in her knees and to the cartilage commanding them to be restored in Jesus name. Next I had her stand up and check the pain. All gone! Then I had her walk without the crutches with assistance. She had not been able to do that for a long time and was unsteady on her feet. I checked her legs and found the left to be one inch shorter. I commanded it to grow and it grew to match the right. Praise God. I instructed her about satan wanting to take away her healing and made sure she knew

what to do if he tried to bring that pain back. Thank you Jesus.
