

June 2016 Report

Florida

Tuesday evening baptism and healing service. As I was walking around the Lord had me stop to pray with many. The first couple want prayer for their house to sell and peace about getting another place. We declared that the house would sell suddenly and that they would find another right away. Then I was able to pray for a woman whose sister was in the in hospital. And another woman for her unsaved son. As i was walking by some people sitting I was drawn to an older man and asked if I could pray for him. It turned out that the doctors were saying he had stage 4 kidney cancer. We declared life and for all cancer cells to be gone and all damage repaired. Then the pastor brought a couple over. The man had cancer in his lungs, liver, and lymph nodes. We cast out the spirit of death and cancer commanding all cancer cells to leave his body. We also prayed peace over his wife. Thank you Jesus for all you did at this healing service.

Sunday evening at a church in Punta Gorda. Was able to pray for a man at my table. Heart and kidney issues. We commanded a new heart and new kidney. For his circulatory system to be renewed and for him to be healed from the top of his head to the bottom of his feet. Taught briefly on Jesus in him and about his authority to lay hands on himself.

Wednesday afternoon I was able to pray with a woman as I was helping her with her computers. She had recently had stents placed in her kidney and pancreas. Having trouble taking in food and getting rid of it. I commanded complete healing for her digestive system from one end to the other. Thank you Jesus.

Received a phone call with urgent request for prayer. Person could not get up out of bed without the room spinning. Balance problems getting up. Prayed commanding healing that the inner ear be healed and that there be no vertigo. When finished all symptoms were gone and the person could sit up, get out of bed, and walk with no issues. Thank you Jesus. Checked in a few hours later and all was well.

Wednesday evening I prayed for a man who hears voices that the demon be gone from him. This was because Holy Spirit had me talk about when I was delivered from those voices years ago back in RI.

Mission Kentucky

Friday on the way to KY I prayed for a woman who had fallen and broken her hip. I got the word over facebook and then texted her directly. She was in good spirits. Then I was on the phone with a woman who was having issues with tendinitis. In her right shoulder. Stiffness and she could not move her arm without pain. I had her put her hand on her shoulder and I prayed commanding pain to leave and for tendons and nerves to be healed. When she lifted her arm all pain was gone. Thank you Jesus.

Sunday morning I got a text from the woman with the hip issue. "Amen. I left hospital today. They have never had a person leave the hospital under 24 hours from having this type of major surgery. All of the departments are amazed, physical therapy, nursing staff, physician. God Is Good.. Thanks for commanding for me!!"

Monday morning prayed with a man and his wife about his sister. Their health is good which is a big testimony in itself. Prayed with another for her roommate who is in a hospital with pneumonia. Prayed with woman with pain in her feet. Her left foot had many broken bones and the doctors have not been able to do anything. After a commanding prayer all pain was gone. One of the workers had been diagnosed with carpal tunnel. I laid my hands on her wrists and commanded the tunnels to be opened and for total healing.

Another worker complained of arthritis in her hands. I gave testimony of another person in the room who Jesus had totally healed two years ago. Then I laid my hands on her and commanded the spirit of arthritis to leave and for all pain to go. The pain immediately left. Prayed blessing on many others.

A woman was having stomach issue due to all the stress she has been under. Her husband was having heart issues. I commanded stress to leave in both of them, for her stomach to be healed, for him to receive a new heart, and for no more heart issues. In Jesus name.

Tuesday I met a girl with knee issues: popping, pain. I laid my hand on her left knee and commanded total healing, for the muscles, ligaments, tendons, and nerves to be healed and for the popping and pain to be gone. I took my hand off her knee and had her stand and walk just a little. ALL pain was gone! A woman had been told by a doctor that she had a cancerous spot on her lung. I rebuked that report and commanded the spot and cancer to leave her body in Jesus name. She is going to get a second opinion with

another doctor and we expect a good report.

A young girl I had prayed for last year just received a clean bill of health from her doctor. Her grandmother is crediting the time last year when hands were laid on her and giving God all the glory. The woman I was asked to pray for yesterday was released from the Hospital. I thanked God for what He has done in her body and prayed for total healing in her lungs. For blood in left lung to leave. One of the workers was showing her husband something going on with her thumb. I asked what the issue was and she said fungus under the nail of both thumbs. I asked if I could pray and she extended her arms so I could touch both thumbs, We commanded the fungus to dry up and for infirmity to leave her body. In the name of Jesus.

Stopped to visit a couple I had not seen since last year. Turns out he was diagnosed with cancer in his liver. He has been undergoing treatment through the VA for the past few months and is feeling much better. He had me lay hands on him. I placed my hand over his liver and declared cancer gone in him. I spoke to his liver and commanded it to be renewed and for all its cells to be like new. Holy Spirit was all over him as we prayed.

Tuesday evening I was able to pray for a man whose right eye was in pain and red. I had him place his hand on his eye and I touched his hand and commanded the spirit of blindness off of him. For his eye to be totally healed and for all redness to go. Later in the evening I checked on him and the redness was almost all gone. I prayed for a woman addicted to nicotine to be freed of that addiction and for her lungs to be totally healed and free from tarr. At the same table I was speaking with a woman I had not met before. She was busy writing a poem, words to a song. We talked about Jesus and I asked if she believed. She said yes, but she was not baptised. Later I found out she believed in God, but was not saved. I led her to salvation and then hooked her up with the man who had preached this evening. He invited her to church and will see that she is baptised and discipled.

Another woman needed prayer for energy and was deeply concerned for her nephew who had a bad liver and is drinking again. The doctors have told him that if he continues to drink he will not live much longer. We agreed in prayer that he be freed from his addiction and that someone would come into his life to help him down the right path. I stopped to visit at many other tables and prayed with them. A few were not interested at all. Perhaps they were leery of this stranger asking if they wanted prayer. Just before I left a man whose legs I had grown out over a year ago came up to me to testify that his legs were still fine. Thank you Jesus for all you did in these people's lives today and for the testimonies of what you had done in the past.

Received a text from a woman who I had prayed for about her eyes. Doctor had told her she had deteriorating retinas and need an operation. We prayed for the spirit of blindness to leave and for her retinas to be totally healed. Here is the text: Went to retina specialist today. Was to be there 2-3 hrs. I was put thru ahead of everyone else and was out in 1hr. Said these new pictures showed nothing with retina. Thank you Lord.

I prayed for a young man who claimed to be backsliding. Talked to him about who he is in Christ. There was an older man with arthritis. We cast it and pain out and stiffness in his hands subsided. Lady with shoulder issues, anxiety, epilepsy. She was filled with anxiety and stress. Commanded the spots in her lungs to be gone and for worry to leave. The lord took away all pain and freed her. Woman with blisters on the bottom of her feet. She only had half of each of her feet; surgically removed due to diabetes. Commanded the blisters to go and for diabetes to be gone from her body. A new pancreas and normal sugar levels.

Another woman with a cut on her foot and 19 stitches in her right calf. Commanded a quick healing in her calf and for the cut in her right foot to close up and be healed. There wa a young man with right knee pain. I laid hands on him and then had him lay hands on himself and all pain left thank you Jesus.

Thursday morning I did the devotional this morning and prayed for the meal. Holy Spirit did all the talking. It was all about who they are in Christ. That no one can take away what God has given them. The free gift of salvation. I prayed with many people this morning more than I can remember thank you Jesus for using me.

I was able to pray with a woman who had aching fingers due to “her” arthritis. And pain in her back and legs. We started with the hands commanding the arthritis to go as well as the pain. After a couple of times and with her commanding the pain and aches in her hands ceased. Then I had her pray for her back with a little success. I asked permission to touch her back and commanded the pain to go. And for the muscles ligaments tendons and nerves to be healed and for all damage to be restored. For the pain in the legs to go as well. After taking a few steps all pain was lifted off her. You could see it in her smile. I asked a favor of her. For her to never call it “her” arthritis again. Thank you Jesus for using me once again.

Sunday morning I preached on Christ in Us. After service I prayed for one lady with heart issues. Holy Spirit was all over her and I know her healing came. Then on the way

out another woman asked me to pray for an uncle also with heart issues.

Then I felt led to approach a young woman to ask what she needed prayer for. She told me about a condition in her eyes that was passed down her family line. I can't remember the name of the infirmity but it was about too much fluid being produced so it was like she was seeing through a lens filled with water. I commanded the spirit of blindness to leave, the spirit of inheritance to leave, and for the water in the eyes to dry up and be healed. She could read a sign far off that she could not see before. Thank you Jesus for workings miracles through me today.

On Monday morning there was a large man with pain in left back. After a quick commanding prayer the pain was gone. Woman with right hip soreness. Gone. Woman going for tests for spot on lung. Commanded it to be gone and for no cancer in her body. Woman with cyst on ovaries. Commanded it to be gone, to dissolve or burst and for all her woman parts to be healed.

Man with left back pain. Commanded it to be healed. For all pain to go. It left. Woman with drooping face on her right side, but not all the time. I commanded healing in the left side of the brain. For total healing in her body.

Woman with gastronomic issues according to the doctors. We commanded total restoration of her gastric system and healing in her whole body. Woman with pain in her wrist and hands. Cast out arthritis. This was a worker we had prayed for the same thing a week ago. Pain gone again.

Prayed for a woman who did not have all her feeling in the right side of her head because of surgery on her head. She could not hear out of her right ear either. I prayed for full restoration in her brain. For all damage to be restored. For the spirit of deafness and pain to go. Thank you Jesus for your healing going into her. Praise Jesus for full restoration.

Wednesday morning a man had two fingers taped together. Someone had shaken his hand a little too vigorously. I held his hand and commanded pain to leave and for healing. When i went to take my hand away he asked me to keep it where it was. He could feel God's presence. Thank you for flowing through me Lord. A woman had congestion and was coughing. I commanded healing In her lungs and for congestion to go. I prayed with others for God to bless them.

Prayed with a man with back, knee, ankle, and shoulder pain. Spoke about arthritis so

we cast it and for the pain to go. Gone. Prayed for a man who just lost his wife. He has been having trouble sleeping. I prayed peace and for the joy of the lord to come upon him. Thank you Jesus. Saw him the next day and he had a much better night's sleep.

Man with left thigh issue. He did not say what it was but it was Itchy and Infected. I had him put his hand on it and I laid my hand on his and prayed. I commanded the leg to be healed. For infection to go and for the itchiness to stop. After a minute or two with my hand there I removed it and asked about the itch. It was gone. He has a Great grandma that was ill and we prayed for her to be fully healed from the top of her head to the soles of her feet.

I had a word of knowledge about a headache. Nobody came forward. Then a woman said she gets headaches from time to time and I called her forward. When she came to me she confessed neck pain and back pain. I laid my hands on the sides of her head and commanded the pain in the neck to leave and for her entire back to be in alignment. For all pain to leave and no more headaches. She still had a little pain left in her neck. I talked to her about who was in her and how much authority she had. I had her lay her own hands on her neck and told her what to command. Almost all pain left and she was about to walk away. I told her it was all going to go and had her pray once more. All the pain was gone. Thank you Jesus. A man came up saying he has nerve issues with his face and head. It was hard to understand him. I prayed for all his muscles, ligaments,, tendons and nerves to be healed. He was touched and began to weep. Praise Jesus. Another great day in the Lord.
