Prayed with a young man with a pain in his back. One touch commanding it to leave. Gone.

Man i prayed with for shoulder issue Tuesday evening said that his shoulder popped into place as soon as i prayed. Today i commanded the sourness to go. A man came in without his wife. She Was home in bed. I had all of us at his table join hands and pray for her.

Was able to pray with a young man who came to the alter. He was asking for a stronger relationship with God.

I was able to pray for one of the workers who came by. She told me I had prayed for her in the past for a problem with her brain stem. She has been back to the doctors and that issue is gone. Praise Jesus! Today she has a new problem diagnosed by her doctor. She was told it was genetic and has to do with involuntary motion in her body.

Received a phone call from one of the workers at the HOB. She had broken her foot and the X-rays indicated she need surgery. We prayed for her foot the other day and commanded the bones to be supernaturally mended. She went for the operation today and the new X-ray showed no brake at all. The doctors could not explain it. Praise Jesus.

One recent convert was having trouble sleeping and having bad thoughts. We talked about good and bad thoughts. I encouraged her I'm how much God loves her and we commanded these demons troubling her to go on the name of Jesus.

Was able to pray with one of the workers with a heart condition. Laid my hand on his chest and commanded full restoration of his heart. For his heartbeats to be normal and his blood pressure normal. In the name of Jesus.

At a house Bible study, we all prayed for a couple of woman with many issues each. Many things were called out and cast out as we prayed. One had one leg shorter and Holy Spirit grew it out. Both came in with pain and when prayer was over, both were free of all pain and believing all the other issues were therefore freed from them as well. Thank you, Jesus.

I was able to pray with many. One man's wife was home with knee issues. Could not walk because of it. I prayed with him in proxy for her and told him what to do when he got home. Saw him in the evening and he said she was much better and up walking after he did what I suggested and prayed with her. Praise God.

Another woman testified to me that I had prayed for blood in one of her lungs a couple of weeks ago. After I prayed all the blood left and she has not had any issue with her lungs since.

Prayed for a man with a spot on his left lung. I laid hands on his chest and commanded that spot to be gone. For any cancer to be kicked out in Jesus name. Delivered food to a couple and the husband had his toes on his left foot removed. Diabetes. I commanded a creative miracle and for a new pancreas. For his sugar levels to be normal. Thank you Jesus

Saturday i prayed with a woman what had fibromyalgia and am believing she is totally healed.

Two people came forward for prayer. One had a condition where her cells contain blood. We commanded her cells to be cleared and for all blood to be gone. And for all swelling to go down. The other woman had pain in her ankles. From arthritis. We commanded arthritis and pain to go. She felt better but it wasn't gone yet. I had her sit down and grab her own ankles. I instructed her on what to say and all pain left. Thank you Jesus!

Took a meal to a man in town. He had fallen and was in pain in his knees and lower legs. I asked permission to hold his knees and pray. I commanded the muscles, ligaments, tendons, and nerves to be healed and for all pain to go, in the name of Jesus. He felt much better, but some pain was left. I had him place his hands on his knees after being sure he was saved. I had him repeat after me. "In the name of Jesus, all pain go. Thank you, Jesus." I had him repeat it again and he was pain free. I then instructed him to do this again if the pain returned; that as a believer he has to authority to speak to the pain and tell it to go.

Thank you Jesus. And for another for a settled stomach.

Saturday morning i awoke with back pain. This is not usual for me so I asked if this was for someone else--a word of knowledge? The pain left. Later i worked on a laptop getting malware off of it. When i was done i asked if could pray with the woman it belonged to. She deals with, you got it, back pain due to scoliosis. Also was having pain in her ankles. With permission i placed a hand on her back commanding the pain to leave, for scoliosis to go, for the muscles, ligaments, tendons, and nerves to be healed in her ankles, and for all ankle pain to go. For stress to leaves and complete healing from the tip of her head to the soles of her feet. I removed my hand after a while and asked her to walk. As she crossed the room she started yelling oh my God over and over. When she turned around the big smile told it all. All pain was gone. Thank you Jesus.

After church I stopped to see the woman I prayed for yesterday. Her ankles are pain free. We prayed in proxy for her friend who had breast cancer return after years of being healed. We rebuked cancer telling it had no right to return. We cast it out and declared her cancer free in Jesus name.

While in Lexington I went with a friend to visit and pray with a man who has been healed from a serious condition through the many prayer from all over the work. The only thing remaining is for restoration of his right arm. He cannot move it up and down or out and his hand movement in slight. We laid hands on his shoulders and commanded full restoration in the name of Jesus. Holy Spirit was evident all over him and in the room. We spoke to the muscles, ligaments, tendons, and nerves and commanded them to be healed and for his muscles to be built up. Prayed with a woman with back pain and pain all over, she said. When I laid my hand on her lower back, with permission, she immediately felt heat from my cold hands. I reminded her that was the Holy Spirit pouring healing into her. We commanded the pain to go. After a while I removed my hand and asked about the pain. She said it felt better. I had her move around and then went to lay my hand on her again and she announced that all the pain had left. Praise Jesus! I prayed for a number of others after completing the morning devotional with them. One lady said after I prayed with her that she could really feel His presence. Yay God!
