

Kentucky Trip Report October 2014

Dick Evans www.dickevans.org

Was in Monticello, KY the last week in October. Arrived on Saturday 10-25 and left early on Tuesday morning 11-4.

Sunday 10-26 preached at Turning Point Church in Monticello, KY. A good morning in KY. Preached for 36 minutes. Had a word of knowledge on the way to the church. Spoke it out and a woman came forward. God healed her back! Then a few others, too. Heart, sacroiliac, in proxy for bondage, heart, and more. God is Great!

Monday morning 10-27 I went to the House of Blessings. Plenty of help so I was able to pray a blessing over many that came for food. I also blessed the food before they all were served. Before I even got in the door a gentleman called me over to pray with him for his daughter. She was admitted to the hospital with seizures, but after many prayers the doctor cannot find the cause. Praise God. During the meal as I went from table to table, God healed shoulders, wrists, and more. Got to spend some time with a new couple who will be getting married in a few weeks. I prayed for their relationship and God showed me some hurts of the past that needed healing. I had them lay hands on each other and taught them to pray. He was healed of back pain due to scoliosis and of fibromyalgia. She was healed of acid reflux. I will see them again tomorrow and see how they are doing.

Spent Wednesday evening 10-28 at an old fashioned prayer meeting. I spoke for a few minutes and God healed one of the leaders wife's neck back and shoulder; all pain left. Thank you Jesus!

Thursday 10-29 served lunch at the House of Blessing. Lots of workers so I was able to pray with people at every table and bless them all. Confirmed previous healings and prayed healing for a number today as well. One lady was having a racing heart beating over 125 bpm. We prayed and her heart rate slowed right down. Thank you Jesus

Went to a small church on 10-29 for the Thursday evening service. What a Glory filled night. After the pastor preached for a few minutes on the gifts of the spirit out of 1 Corinthians 13, he asked me to come up and pray for people. He testified to the healing her received when I was there in August. He had had a problem with his left toe for a couple of years. I had him take off his shoe and laid hands on that toe. He announced tonight that he has not had a problem with it since that night. Praise Jesus. Then he told his congregation I had the gift of miracles! Wow. That is the first time someone had said

that. People came forward and backs were healed, tingling in fingers, pain in an arm from a car accident, and more. We asked for a new heart for one lady. She also had pain in her hip and God took that away. Another lady and a man both had hip issues and all pain left. We prayed for a new pancreas for someone else and for a shoulder issue. The shoulder did not manifest with total healing, but we know God imparted His healing into him. Cast out the spirit of anger in a number of people as well. Thank you Jesus for all you did tonight.

Preached at Jesus Christ Chapel Sunday morning 11-2. God showed up and did many miracles at the end of the service. A woman came forward with neck pain, a headache, and stomach pain. As I reached forward to lay hands on her she almost fell over in the spirit. I prayed for her issues and commanded pain to go. All issues were healed and God laid her down in the spirit. An older woman with a walker was having a balance problem. She did not need the walker to walk, it was just in case she fell. Prayed for balance and strength. Another came up with diabetes and we commanded a new pancreas and that her sugar levels and A1C numbers would be fine. And for a strong heart with normal blood pressure and that her veins and arteries were 100% open. A young man, father of three children, has been having seizures since he was six months old. We command that spirit to leave. Another woman was having pain in her lower back on the left side. We grew out her right leg about an inch and commanded pain to go. It all left. Prayed with her husband for anger issues and commanded that spirit to go. An older gentleman came up with a cane. We prayed for a new liver, a strong heart, and strength in his legs. Also for fresh blood supplied by Jesus. Prayed for a young woman for safe travel for her family as they moved to this area. God showed me some guilt from her past and God freed her from it. He healed a young girl's jaw. She was having trouble opening it, the right side was not opening all the way. He immediately freed it and she could open her mouth. Thanks you Jesus for all you did today and this past week here in Monticello, KY.

Cleaning lady came in this morning 11-3 to give the house a once over before I leave for FL in the morning. She slowly came up the stairs and asked if when I come back if she could have her daughter come instead of her. She did not feel she could do this kind of work in the future. I asked why and she told me all the things the doctor had told her, disc issues in her back, arthritis all through her body. I asked if she had pain and she said yes all over. I asked if she believed God could heal her and she said she did. I sat her down and God grew her legs out an inch and then her arms as well. I cast out the spirit of arthritis and after prayer all pain left her body. Praise Jesus. I then taught her about the authority she has to command those aches and pains to go, in Jesus name.
