## Rhode Island

About me. I arrived in RI where it turned damp and cold. I awoke the first morning with a sore throat that did not go away when I took a hot shower. My mind went in the wrong direction. I did pray for healing but was still thinking wrong. I was planning to buy cough drops and sore throat spray. I was giving in to the wrong reality. It got worse. Now my teeth started to hurt as well. I was having trouble swallowing. I was still praying but was thinking more of the problem than the solution. I came to my senses and asked for help. I confessed my problem and they agreed in pray with me. I am healed in the name of Jesus. It was finished at the cross. It is finished. The next day all symptoms left. No more tooth pain. No more sore throat. No more issues swallowing. Thank you Jesus. It is so important to focus on who we are in Christ and so easy to drift away from that truth. Satan is a thief and a liar. He will do anything to drive a wedge between us and God. He will find others to give us worldly advice convincing us to focus on the issues and not on the real solution. In Jesus and who we are in Christ. In the truth that we are already healed. It was completed at the cross.
