

November 2015 Florida Testimonies

Lady in front of us in church had pain and arthritis. We (another believer and I) prayed binding and casting out arthritis and pain in Jesus name. All pain was gone.

Sunday afternoon at a church meeting we prayed for a man with a cold and cancer. We bound and cast out that spirit of cancer and took authority over that cold. Then we (another believer and I) prayed for his granddaughter with a cancerous mass in her chest area. We declared that mass to be gone and for all cancer cells to die, In Jesus name. Then another woman came up to us to pray for her father who is in Brazil with bad hip pain. We had her stand in for him and as I laid my hands on her hips, with permission, we commanded hip alignment and cast out pain. And she had a wrist brace on her right arm. Seems she fell off her motorbike and fractured it. We laid hands on her wrist and commanded supernatural healing, for the bones to mend together in record time with no pain. Praise Jesus.

Evening service at another church. A young man came to me with a headache. I touched his head right where he indicated the pain was and commanded it to be gone in the name of Jesus. Instantly all pain left. A woman with back, shoulder blade, hip, and leg pain saw what had just happened and ask for prayer. We laid hands on her back and bound and cast out that spirit of pain. It went from a level 10 down to a four. Thank you Jesus!

Went to lunch with ministry friends and when I was about to leave I went to ask for a togo container for a half sandwich and the person who got it for me was having a hard time picking up one container off the stack of them. He remarked that he wished his hands worked like the used to. So asked him what the problem was and he said arthritis. I told him I was a missionary and would he like me to pray for him. He said yes and I held his hands. I told him that arthritis was a spirit and that we were going to cast it out. I then, in the name of Jesus, bound arthritis and cast it out. Then I bound and cast out pain and commanded all damaged from arthritis to be restore. I asked how his hands were and he made a fist a few times and said they were great. Thank you Jesus!

Monday evening prayer and worship. A man had pain in the back of his neck. I had him face me and I put my hands on the side of his face and in the name of Jesus commanded his brainstem to line up with the top of his spinal column and for all the muscles, ligaments, tendons, and nerves to be healed in and around his neck. For all pain to go. Then I had him move his head back and forth and up and down. All pain was gone. Thank you Jesus!

After a Healing Discipleship Group we had a practice session and they laid hands on each other. A man who was healed last week of tinnitus laid hands on a woman with tinnitus or ringing in her ears. Not completely gone but much lessened. A man had shortness of breath and pain in his spine -- upper, middle, and lower. A hand was laid on his middle back and pain commanded to leave. He felt something leave his body and all pain left his back and his breathing was restored at the same time. Praise Jesus.

Wednesday evening at a church meeting a woman came to me with an issue with shaking in her neck--cerebral palsy. I did the neck thing and commanded her brain stem to line up with her spinal column, bound the shaking and pain and cast them out. She felt a peace and much better when we finished. Still some shaking, but I believe that will stop.

The man that received healing at the Discipleship Group asked me for prayer for his stomach. We bound and cast out whatever that issue was and he was so filled with Holy Spirit that he was swaying back and forth.

At another Healing Group two needed prayer and received their healing. One had to do with a jaw issue and the other legs. Everyone practiced laying hands on a lower back. Then on the way out the woman we had prayed for a week ago Sunday for her father in Brazil reported that her father is walking long distances without pain. Praise God! And the other person we had prayed with that same day for sinus issues is totally healed as well.

Wednesday evening at a church meeting I had a word of knowledge at the end of the night while we were in a prayer circle for a headache. A woman came forward for an instant healing. Praise Jesus!

Thursday evening a man was experiencing some pain in his back after a lot of physical labor during the day. One of the study members who has not been laying hands on the sick was near me, so I had her place her hand on mine as I touched the area on his back that was in pain. I had her command the pain to go in the name of Jesus and leave her hand there for a little while. Then we had him move and most of the pain was gone. I had her lay her hands on his back again, without mine, and command again binding and casting out that pain. The rest of it left. Now that pain was gone and he realized he had pain in his left leg up near the hip. I had him lay his own hand on it and command in the name of Jesus for that pain to leave. Praise Jesus he saw the results.

Saturday Morning I stopped at an outside ministry that was handing out food and praying for people. I prayed for one woman to be set free of fear, another for pain in her right knee, and a man for pain in his legs the result of being shot in service and multiple car accidents since. They are all appreciative of the prayer and I know His healing is in them. However, there was no indication of the healing evident right then and none wanted more. Praise Jesus for the work He is doing in them right now!

Sunday morning I was able to pray for a man with back issues. I laid hands on his back commanding the pain to be bound and gone. Pain lessened. Prayed again and the big smile on his face showed it was lessened again. Instructed him on praying for himself and it lessened even more.

At a Monday evening prayer and worship I had a word of knowledge for a toothache. One lady came forward with a sensitive tooth. We commanded that tooth to be healed on to be desensitized, In the name of Jesus.

Tuesday evening at the Healing Group we talked about our authority in Christ. One person who has not been with us since the first night testified that she had hands laid on her that night for cataracts and she is completely healed, She has been laying hands on herself for perfect vision and her vision has been improving. She wants her glasses gone. Thank you Jesus. I prayed for a woman with an issue of circulation in her legs. I had her lay hands on her own butt and while I laid my hands on her shoulders I commanded her nerves to be healed and for her circulation to be normal. I had her walk a bit and she could feel relief right away. Another was prayed for pain in her coccyx bone. She will know when she sits again for a long period of time. There were other healings going on that I did not hear about yet.

Wednesday evening at church a woman came up to me with right shoulder pain. Quick prayer and it was pretty good. Second time just saying thank you Jesus and it was all gone. Praise God!

Sunday while in AZ I had a phone call from a friend in FL. He had an MRI for his back and the doctors told him a list of things that is wrong with him. He called with much pain and trouble walking because of it. I had him place his hand on his back and in the name of Jesus I commanded the pain to be bound and cast out. Also commanded the back to be healed. Had him walk a little and most of the pain was gone. Had him place his hand on his back again and for him to say "Thank you Jesus" over and over. He reverted to thanking Jesus in advance for the healing and I corrected him reminding him that Jesus already healed him. I also reminded him that he had Holy Spirit in him and he

has the authority and power to lay hands on himself. Praise Jesus, when he walked again the pain was gone.
