

October 2017 Testimonies

In Florida:

Prayed for a woman with right hip pain. Checked her legs and Jesus grew one out about one-half inch. Commanded the pain to go and for complete healing of the hip flexor. Had her walk a bit and all pain was gone. Praise God.

Laid on a woman with cancer. Commanded it out of her. Then her husband had a pain in his neck and a headache along with a swelling in his neck. After one 'prayer' most of the pain left as evidenced by the expression on his face. Had him place his own hand on the are and command it gone in Jesus name. The rest left. Thank you Jesus.

Tuesday morning I was volunteering at the computer club and overheard a conversation about one of the other volunteers having pain in her foot and possibly a bone spur. Sometime later I asked her what was going on with her foot and she related the story to me. I asked if I could pray for her and had her take off her outer shoe. The pain was in her left heel. I held her foot and commanded the bone spur to go and for all pain to leave. She walked across the room and was surprised that the pain was lessened. I commanded it once more and she walked again with more of the pain gone. And then a third time and the pain was less and less. Then I had her command it to go and when she walked it was almost non-existent. Praise Jesus! Then I taught her how to pray for herself.

One lady came up with a toothache. I laid hands and commanded the pain to go and for the nerves to be healed. After multiple times most of it was gone. Thank you Jesus.

Then another woman came with hip and back pain. I had her sit down and Holy Spirit grew out her leg. When she stood up and walked all the pain was gone. Then she asked for healing from allergies and her sinuses. I commanded allergies to go and for her sinuses to be dried up and her breathing to be free. She took some deep breaths and all was better.

A man came up with back pain. One quick prayer commanding the pain to go and he could not find it! Next his shoulders. Muscles and nerves damaged. I commanded the muscles, ligaments, tendons, and nerves to be restored and for all pain to go. When he raised his arms over his head all pain was gone. Praise Jesus.

Woman with pain in back and neck. Lord grew out her legs about an inch. We

commanded pain to go. She walked a few feet and most of the pain was gone. Had her commanded it to go and when she walked she was free. Then He grew out her arms and most of the pain left. She touched the spot that remained and commanded it to go and it did. Praise God.

Was able to pray with a woman with a cane. She was discouraged in her walk and confused. We commanded the spirit of confusion off of her and then asked about the cane. She told us she had pain in her hip, knees, and back. She said she had degenerative disc disease. I looked her in the eyes and asked her to promise me one thing. That she would never again say that she had that. We laid hands on her back and knees and commanded in the name of Jesus for all pain to leave and not return. And that her discs be regenerated in the name of Jesus. I asked her to walk toward me and she went to grab her cane. I lightly took hold of her fingers and she walked forward without the cane. She stopped, smiling and I asked her how the pain was. She told me it is gone. I had her bend her back and she straightened and told me there was no longer any pain. I told her Jesus had healed her and it would not return. What God has given He does not take away. Then I explained why she should not speak death into her life. That demons are just waiting to come and make it happen. Speak life and angels are there to make it happen.
