

## October 2015 Testimonies

Friday morning I went to the Y and one of the women in the class with me was complaining about her hands. Another woman asked if she had arthritis and she responded: "Oh yes, all over." After class was over I approached her and asked how her hands were and if she was in pain. She was, so I asked if I could pray with her. She said yes and I held her hands and prayed. In the name of Jesus I bound and cast out pain. I cast out arthritis and commanded anything damaged by arthritis to be restored. For all pain to leave, now. Thank you Jesus, she said there was no more pain!

Saturday morning I was able to pray with two of the men at a meeting. One asked for prayer for a ministry friend with a spot on his lung, so we prayed for him in proxy and in agreement for that spot to go in the name of Jesus. Then he asked for prayer for himself. The doctor is telling him that he has scoliosis or curvature of the spine. It is manifesting in the right side of his neck. With permission I laid hands on his neck, bound and cast out the spirits of pain and scoliosis. We spoke to the muscles, tendons, ligaments and nerves and commanded them to be healed and for all nerve to awaken on the right side of his neck and body. In the name of Jesus. Then the man next to him asked for prayer for his left hand. Joints are painful and doctor says he might have carpal tunnel. I checked for that and sure enough, carpal tunnel. We commanded the tunnels to be opened and for the nerves to be free and clear, for the pain in his joints to be healed and all pain to go. Thank you, Jesus.

After service I was able to pray for a couple of women. The first was suffering from Fibromyalgia. I bound that evil spirit and commanded it to go, in the name of Jesus. I asked what she was feeling. She replied: "Warmth." I told her that was Holy Spirit healing her. Another woman had some autoimmune disease and lower back pain. I bound the disease and the pain and commanded them to go. The pain instantly left. Thank you Jesus.

Before worship began one of the young men came up to me and asked me to pray for him. He was having problems with his right ear--fluid and pain. We bound and cast out pain and commanded the fluid to drain. And we also commanded perfect eyesight. After worship another man came up to me and asked for prayer for migraine headaches he was having nightly.; Also a swelling in his left thigh. Jesus grew out his legs and arms. We bound and cast out pain and commanded the swelling to go down and for migraines to stop and not return. We also counseled him on what to pray each night before going to sleep. I had him walk a little and his leg felt much better. Praise God.

Before service I prayed for a woman with a broken back. She was wearing a brace. With her permission I placed my hand on her back where she was having pain. I bound and cast out the pain and commanded the bones to mend. After the second prayer, all pain left. I suggested she not take the brace off until she saw her doctor. And the end of the night I had a word of knowledge about tooth pain. A man came forward with issues exactly where I was experiencing the pain earlier. I bound and cast out pain commanding the tooth and nerves to be healed. He said he only gets the pain as he chews so there was no confirming evidence right then, but we know that we know that he was healed. Then a woman came forward that had been experiencing pain in her tooth as well. I laid hands on the sides of her face and commanded that pain to go. Thank you Jesus!

Tuesday evening those in attendance at a Healing Discipleship Group practiced by laying hands on each other, after some instruction. One received 90% healing from pain in her back. Another received mobility back in her neck and is not able to stretch her neck left and right. The third received healing of her eyes. Cataract was cast out and moisture commanded in. Her eyes teared up and she could see much better. Thank you, Jesus for your demonstration of healing tonight. The next day the woman called to tell that her cataracts were gone and she could see the stars in the sky.

At an outreach this morning at one of the Port Charlotte churches I was able to pray for a number of people. Some were looking for jobs for themselves, healing for their children and grandchildren. Some just needed an ear to hear and a touch from God. Many needed to be free from physical issues, especially pain.

The first person I met had been healed recently and although he had mobility in his neck that was not there a week ago, he still had some pain in his back left neck area. We laid hands on it and commanded the pain to go completely. It left. A woman came that we had prayed for in April of this year and testified that the hepatitis C we commanded out of her body has been in remission ever since. Praise Jesus. We command healing in some people for things that were not evident, but believing Jesus healed them. Those issues were COPD, Glaucoma, cellulitis, liver restoration, smokers cough, hernia, eyesight, hearing, In every case they felt Holy Spirit working in them as we laid hands on them and prayed. A woman with back pain and arthritis felt the pain totally leave as we cast out arthritis and pain. We prayed for a couple. She had rheumatoid arthritis and was told she might have cancer in her throat. He was dealing with the aftereffects of seizures. We bound the spirit of pain and cast it out of her. Then we bound arthritis and cast it out. We bound cancer and cast it out. All in the name of Jesus. Her pain left and tears poured out as Holy Spirit healed her body. The pain left. Next we prayed for the damage done by her husband's seizures be restored. One

person felt my hand shaking as I was laying hands on her damaged liver commanding a new one into her. My hand was not shaking. I believe she was feeling Holy Spirit putting in that new liver. Another woman had pain in her right elbow. I laid my hands on the spot where the pain was and bound and cast it out. All pain left immediately. Another had arthritis and knee pain. We bound pain and arthritis and cast them both out. She stood up and all pain was gone. A woman had back pain and said it was from arthritis. We bound and cast out the pain and the arthritis. When I had her stand her face showed before she spoke that all the pain had left. And that it was much easier to get up from the chair. He healed a mitral valve in another woman. One woman had pain in her left leg.. I had her sit down and stretch out her legs. The left was an inch shorter than the right. Jesus grew out the leg as we commanded the knee to be healed and for all pain to be gone. She stood up and walked without pain. In all cases we reminded them of who was in them and that they had the same authority and power. If their pain or other issue tried to return, they are to lay their own hands on that part of their body and commanded that pain to leave in the name of Jesus. And last but not least, two of those we prayed with received Jesus today as their Lord and Savior. Thank you Jesus!

Saturday afternoon I was working on a person's computer at their home. The wife mentioned that her husband was dealing with macular degeneration. She asked if I would pray for him before I left. Of course I said yes and I prayed for both of them commanding complete healing in both eyes, for macular degeneration to be reversed. Thank you Jesus!

Saturday evening after service a young woman I had prayed with for her to find a job testified that she got one. She then told me about a pain in her right hip that she was experiencing when she walked. We prayed binding and casting out that pain. Then I had her walk and as she turned around to return to me I could see in her face that the pain was all gone. Thank you, Jesus.

Monday evening as we were leaving a worship session we passed by a man who when asked how he was doing told us about the back pain he was dealing with. We stopped and laid hands on his back and prayed commanding that pain to leave in the name of Jesus. We continued until it was gone. Praise Jesus!

Wednesday evening a man came up to me at the end asking for prayer. He had pain in his spine, ringing in his ears, and pain in his stomach. We commanded all pain to leave and it did. The ears took a couple tries and finally for him to do the commanding. Then all the ringing left and he was totally healed. He said he felt such peace it was amazing. Thank you, Jesus.

Thursday morning was able to pray for a woman with lower back pain. With permission I placed my hand where the pain was and in the name of Jesus commanded the pain to leave and for the muscles to be healed. The pain instantly went down to a level 1. I kept my hand there for a while and she felt burning as Holy Spirit worked in her. When I finally lifted my hand off of her back all the pain was gone. Praise God!

Saturday evening we were approached by a woman who was dealing with a balance problem, pain in her eye, and MS. Three of us prayed with her commanding the inner ear to be healed and balance restored. We also prayed for her eyes. We commanded a spirit of blindness to go. We bound pain and cast it out. Had her walk a little and as she walked the balance was restored. Pain was less in her eye. We prayed again and all pain left her eye. She mentioned MS, so we commanded a renewed and strengthened immune system, then bound and cast out the spirit of MS. She felt a tingling sensation all through her head as Holy Spirit was working in her. Thank you, Jesus!
