

September 2014 Testimonies

Attended a meeting in Port Charlotte. I was asked to pray for a couple of people and then many came forward. Lady with Diabetes; asked God for a new pancreas and for her sugar levels to be under control. Woman came with an unspoken issue. Commanded healing and she went over in the spirit. Stayed down for a while. A granddaughter of one of the woman had pain in her right knee and ankle. God took it all away. One woman had issue with left eye. Pupil no dilating and damage from walking into a corner. Some sight came back. Another hearing problem in left ear. Much of her hearing was restored. Older woman with cane dealing with arthritis throughout body. Pain all over. Cast it out and all pain left. She could walk without her cane and pain free. One of the men in the meeting came forward with arthritic pain and in need of a new heart. Pain left and we commanded a new heart. Praise Jesus for using me.

Attended Praise and Worship at the Englewood Beach and one woman mentioned the pain she had in her back the result of arthritis. I asked her if I could pray with her. Cast out the spirit of arthritis and commanded the pain to go. It left. I then did a brief teaching on her having the authority and power to do the same. Thank you Jesus for using me tonight.

At one of our Bible Discovery Group meetings a woman received a healing for pain in her ankles. Prayed for another dealing with vertigo and while praying for her another woman was healed of vertigo! Thank you Jesus! One of the men actually saw the spirits leave!

At an evening fellowship one lady had a burning sensation from her throat all the way down to her stomach. First prayer released some of the burning. Prayed at least eight times and the last three all I said was Jesus Jesus Jesus. All the burning left! Thank you Jesus.

At a Bible study the woman Jesus removed the ankle pain from previously testified her ankles were still pain free, but she had other pain in her fingers and head. Prayed and all that pain left. Thank you Jesus!

At a church on Sunday I prayed for a woman's legs and all pain left. mach. After continuous prayer (about 8 times) it left. The last 3 times all I said was Jesus Jesus Jesus! Assisted in prayer with Pastor Tony from EBC over a few others. Thank you Jesus for all you did!

Thursday evening was spent at a study and at the end we asked who had prayer needs and then prayed for all. Then I asked who was in any type of pain. One woman said she had pain in her left hip. We all laid hands on her and prayed. I cast out pain and all pain left her. I then was able to do a brief teaching on our authority and the power of the Holy Spirit to speak to the issues in our own body. She then spoke about "her rheumatoid arthritis". We cast that out as well. Thank you Jesus!

Saturday morning I helped out at a local food pantry where they also do haircuts, eye checkups, hearing checks, among other things. And best of all when getting them checked in we get to pray with them. I was able to pray with my partner and God released her from Rheumatoid Arthritis. And we prayed for over twenty others for a number of issues. Great morning in the Lord. Thank you Jesus!

Attended church service on Saturday evening and was able to pray with a young woman who was just diagnosed with diabetes. I prayed for her peace of mind and command diabetes to go and for her blood sugar to be normal. Thank you Jesus.

At the end of another Bible Discovery Group, after prayer I was able to lay hands on one of the visitors. He had broken his right hand. I noticed when he arrived he extended his left to shake hands. I asked if I could pray with him and commanded healing in his right hand. When I asked him to try it out he closed and opened both hands and they were the same! He was not able to do that before. Thank you Jesus!
