

# September 2016 Summary

Thursday I was coming out of Bed Bath & Beyond and was thanking a woman for offering me a 20% off coupon. I felt led to ask her if she needed prayer. She did. Pain in her neck. I commanded it to leave, made sure she was saved, and had her pray for herself. No more pain. Thank you, Jesus.

Saturday morning I was having breakfast and was able to pray with a woman who had fallen and hurt her shoulder. With permission I laid my hand on her shoulder and commanded total healing, restoration of all damage, and for pain to leave. Thank you, Jesus. It left.

Visited a woman in rehab and prayed with her for total restoration from hip surgery after a fall she had a week ago. And was able to pray for the woman in the bed next to her as well. Thank you, Jesus for these opportunities.

Wednesday I stopped at hospital to transport a friend home. I heard a woman praying in tongues with the woman in the next bed. When she finished I introduced myself and was able to lay hands on the patient. After we prayed commanding full restoration and for the spirit of infirmity to leave her alone, I was able to build her faith by sharing some current testimonies from the KY trip.

Thursday got to pray healing over a man and woman during the day. He is dealing with macular degeneration. We commanded that spirit and the spirit of blindness to leave.

Friday morning I was at a class at the gym and overheard the instructor talking about the pain she was in. After class I went up to her to thank her for the class and was judged by Holy Spirit to ask about her pain. It was in her back and elsewhere. With permission I laid my hand on her back and commanded the pain to leave in the name of Jesus. She said it was a little better. Then I took my hand away and asked her to bend and move. Her face said it all when she realized there was no more pain. Thank you Jesus.

Sunday morning I testified about KY trip and had over a dozen come to me for healing while the pastor was preaching. All pain was healed. Prayed for eyes ears backs necks fibromyalgia diabetes liver and more. One lady came in with a walker. She said she had vertigo. Well that vertigo had to go. She left without the walker. Thank you Jesus.

Was helping someone with their computers today. She found me online while looking for someone else. She started coughing so I asked if I could pray for her. I placed my

hand on her back and commanded the spirit of infirmity to go. For the cough to go. In the name of Jesus. A little while later she realized that she was no longer coughing. Praise Jesus.

Tuesday afternoon I was helping someone on their computer and was able to pray with him for his wife who was in a rehab facility.

Wednesday morning at the gym I was pulled aside as I was leaving by a woman with pain in her lower back. I laid my hands on the spot, with her permission, and commanded the pain to go. Prayed twice and had her walk a little. Pain gone. Thank you, Jesus.

Thursday evening before the study started I received a text from a woman in RI. She texted: I have been in the hospital, taken mini strokes, have had to have 2 vanes on my neck done in 6 days as well as a possible open heart done at the same time. I replied: In the name of Jesus we command the spirit of infirmity out if you. Now! All damage must be restored. Thank you Jesus. In a few minutes she replied: Yes, Jesus, I am nervous, please give me peace. I feel better right now! Wwwwooooooooooooo! Thank you so much.

Then after the study we laid hands on a man with pain in his left hip, degenerative disc issues, and a neck that would not allow him to move side to side or up and down. Dr claimed arthritis. We bound and cast that spirit out. Pain left. He could bend over and had not been able to do that for a very long time. And could move his neck again. Each time he move his head to places he could not do before he would exclaim Wow Wow. Thank you Jesus!

I was at breakfast Saturday morning and was able to pray with a woman with two spots on her lung and some disease causing her to cough and making breathing difficult. Commanded the spots to be gone. The issues in her lungs to be cleared up. As she walked away from me she turned to tell me she could breath much easier. Thank you Jesus.

Saturday I prayed with a woman afterwards who came up to me. Colon cancer she was told. I bound and cast out cancer calling forth total restoration. I explained what Jesus did for her at the cross and gave testimony to some of the recent healing I have seen Him do. Praise God!

Sunday morning service at Edgewater. Prayed with a young man with brain cancer. Talked about who he is in Christ and bound and commanded the spirit of cancer out of his body. Thank you Jesus. Then a man came up to me that I had prayed for a couple of days ago. Only one thing remained. A knot in his left back neck. I put my finger on it

and commanded it to leave. Thank you Jesus as he moved his head the knot and discomfort left. After service I prayed with a man having his last chemo treatment in a week. We bound and cast out the spirit of cancer and commanded all damage done by the chemo and cancer to be fully restored. Thank you Jesus. A woman came over with pain in her right knee. I laid my hands on her knee and commanded the pain to go. Nothing much happened. I had her sit down and checked her legs. One was shorter than the other. As I prayed she felt it grow out. Commanded the pain to go once again. Some remained. She sat down again and I placed my hand on her knee. She felt a tingling in her knee all the way downtown her foot. I reminded her that this the Holy Spirit working. When she got up she skipped away totally free of pain. Thank you Jesus.

Thursday at lunch I was able to pray for a number of people at my table. The first had cataract in his left eye. I commanded that to be gone and for eyesight to return to normal. He checked his eye and could see better. Thank you, Jesus. That led to a number of others. One had me pray for his son. I laid my hands on his back and commanded the back to be restored and for all pain to leave. Also for cataract to be gone from his father. Then for a woman with cataract as well. Also a pain in her gut that she would have when she first wakes up. We cast that and the spirit of cancer out of her. Then for the woman next to her for issues in her eye. Doctor called it dry eyes. Then a blessing for her husband that turned into a prophetic word over his life. And lastly for a man who has had cataract surgery but is having problems with his eyesight. Thank you Jesus for meeting all their needs today.

At dinner I was able to declare healing over a woman who claimed she had type two diabetes. We command a new pancreas and normal sugar levels. Thank you Jesus.

Friday. Laid hands on a man this morning with spinal synovium and bone spurs in his back. As I prayed he felt the heat of the Holy spirit working in his back and tears flowed. Others praying saw visions of white things breaking. The bone spurs. Thank you Jesus. Confirmed the next day that he was totally healed!

At lunch received confirmation of healing for a woman's eyes and For a man's back. Thank you Jesus. Prayed for another who desires 20/20 vision and no need for reading glasses. Yay God! Man that has me pray for his son has not had vertigo since we prayed. Thank you, Jesus.

Thursday I was helping someone with their computer and they shared physical issues they were having with vertigo, RLS, and constant back itching. Also emotional issue with estranged daughter. I laid my hand on his shoulder and prayed for him commanding each of these issues to leave in the name of Jesus.
