

# Testimonies February 2018

Woman came forward to testify that I had prayed for her left elbow a few months ago. She demonstrated that it is totally healed. Praise God!

Man whom I had prayed for before with a left shoulder issue. He was fully healed but now his right shoulder was giving him a problem. I grew out his arms and commanded pain to go in his shoulder. He lifted his arms and most of the pain was gone. Prayed again and it was all gone,

Another man came up with a left knee issue and issues with his feet and a disconnected bone in his left foot. I placed my hand on his left knee and commanded complete healing and for all pain to go. He walked a bit and said it was better. We did it again commanding the knee and the foot to be healed. Walked again and he was healed, walking much better. His range of frequencies was narrow and his hearing distorted. We commanded the spirit of deafness out of him for restoration of his hearing. I took my hands off his ears and he felt it was better.

Friday afternoon at the Olive Garden. Waiter complained of allergies as the reason why he cannot have their breadsticks. Later I asked him if I could pray for him. He said yes and let me place my hand on his chest. I commanded in the name of Jesus for the allergies to go and never bother him again. For total healing from the top of his head to the bottom of his feet. Amen.

A woman mentioned pain in her right wrist. She thought it was carpal tunnel. I showed her how to check and that was not it. So I laid my hands on her wrist and spoke to the muscles tendons nerves and ligaments and told all pain to go. She checked and still had a little left. Prayed again and all pain was gone.

A woman came in with neck pain. With permission I laid hands on her neck and within seconds all pain left. A man I had prayed for before was still experiencing some pain in his shoulders. I laid my hands on each shoulder and prayed commanding pain and arthritis to go. I let go and he raised both arms telling me with a big smiles that it was much better.

I prayed for many as I helped them bring their food to their vehicles. One woman in line for food had much pain in her lower back and right hip. After two short prayers for pain was mostly gone. A few moments later she was starting to dance as her hip was healed

and the pain in her back mostly gone. Thank you Jesus. Later I was able to lay hands on a man with a pain in his neck after a few moments of prayer commanding the pain to go he was free. Praise God. I was able to pray for a number of other people for varying things as we helped deliver their packages to their vehicles. Grew out a woman's leg an inch and prayed for her knees, back, and feet. Pain left and she testified the next day her feet were much better.

A woman healed of breathing problem. Another for a headache. Another for pain in wrists, side, and knee. And a man for pain in his neck. All pain left in Jesus name.

I gave a brief talk on healing before calling those in need up for prayer. One woman I prayed for last week for neck pain testified her neck is healed and she is totally off her pain medication.
