

Testimonies January 2019

Man with pain in his left knee. I sat him down and checked his legs. 2" difference. As I prayed, his legs grew and I commanded all pain to leave. For his knee to be perfectly healed. He walked a few steps and the pain was much less. We prayed again and it was all but gone. Thank you Jesus.

Woman with pain off and on in her left heel. I grabbed hold of her heel and commanded all pain to leave and for whatever was causing the pain to be removed. Thank you Jesus.

Woman in hospital with cancer. Laid hands on her and released the healing power of Holy Spirit into her. Commanded the spirit of cancer out of her body and for full restoration of all damage. In Jesus name.

Man and woman at computer club lost son in a helicopter crash. Prayed peace over them and their family. And for a safe trip to see the grandson for his birthday.

Man at club lost son in law who shot himself. Prayed for him and his family. Thank you Jesus for your unconditional love. Thank you for your peace and for all things to work for the good for those who believe.

Was able to pray with a number of women in the surgery waiting area. We circled up and prayed for their loved ones and for them. For healing and for peace.

Prayed for a woman in Staples today. I knew who she was and she called me over to ask me to put her on a prayer list. I said sure but let

me pray right now. So right there in the middle of Staples we held hands and I lifted her up in prayer. Thank you Jesus for hearing her needs.

While working on a computer at someone's home I discovered the husband was having some issues. Hearing problem in left ear. Balance issues and weakness in his legs. We held hands and I lifted them up in prayer. I released the healing power of Jesus into him. Then I asked to place my hands on his ears. I asked him take out the hearing aids. I then commanded the spirit of deafness out and for hearing to be restored. After the second time we tested his hearing and he could hear out of both ears. Thank you Jesus. Then I commanded strength in both legs and for balance to be normal. I had him walk and the improvement in his gait was obvious.

Man came up to me because he had a headache. I placed my hand in his head and commanded the headache to go. For all pressure to be released. In Jesus name. All pain left.

Another man with pain in his left knee. Doctor told him it was his meniscus so we laid hands on his knee and commanded it to be healed and for all pain to leave. He walked a few feet and back and said all the pain was gone. Thank you Jesus.
