

Testimonies March 2015

I had a word of knowledge for a right knee and two or three people came forward. One woman was having an issue with the cancer on her leg and under her armpit and a few of us prayed casting out that spirit of cancer. Another lady had an issue with both of her knees and I bent down and grabbed both knees. I commanded pain to go and for her knees to be restored in Jesus name and all the pain left.

A woman had right knee pain from a fall last week. I laid hands on her knee and cast out pain commanding total healing. All pain left. Later I had a word of knowledge for a left foot. A lady came forward with pain in her left foot which she has had for over year and half. Word of knowledge. Prayed twice laying hands on her foot. All pain left. Praise Jesus!

A woman came up to me and asked if I could lay hands on her. She told me that she has headaches all the time. I laid hands on her neck and commanded the headache to go and for all pain to go. A lot left after a few quick prayers. I taught her how to do it herself and taught about her authority and power, Had her do it and the pain was gone. Thank you Jesus for using me today.

Got to pray for a woman that had left knee meniscus pain. Grew out leg n inch. Pain gone. Stiffness. Prayed again stiffness left.

Went see a woman who was having burning in her back from a mixup in medicines. I commanded the nerves to be healed. Burning left. Grew out arm half inch released tension.

A man complained of arthritic pain in his left thumb. I asked if I could pray for him. He said yes, so I cast out the spirits of arthritis and pain and all pain left. Thank you Jesus for using me again today.

I went to help a couple with their computer and on the way I had a word of knowledge about a right knee. You guessed it, he was having pain in his right knee! Was able to pray for it and before I left he asked for more prayer as he is dealing with colon cancer as well. We cast it out.

After preaching at a local church I had a word of knowledge about two knees with pain just above the knees. A woman came forward and God healed her. She mentioned arthritis and hearing problems. We cast out arthritis and deafness, then commanded anything damaged my arthritis to be restored and for her hearing to be healed. She called the next day and her knees were great, no pain, and her hearing has improved. Thank you Jesus!

Prayed for a woman at the end of a church service. Commanded her sinus to open and lungs to be clear. She was then able to take deep breaths and felt much better. Thanks Jesus!

On the way to a praise and worship evening, I asked God to heal people as they came into the anointing without anyone having to lay hands on them. During the praise one woman spoke out that she was having trouble with her eyes all week long and when she came into the house she felt the anointing so strong and her eye were instantly healed. Thank you God for answering my prayer.

God healed a woman who had a knot on her right foot. Totally healed! Partial when I laid hands on her and finished when I had her husband lay his hands on her. Both times she felt tremendous heat from our hands, but neither one of us felt it. Then I had that woman lay hands on another woman with arthritic issues with her right hand/thumb. It was taken care of with one prayer. Thank you Jesus.

I was teaching a class on word processing and one of the attendees was typing with one hand. I asked what was wrong with her left arm. She told me she had lots of pain in her left shoulder. I asked if I could pray with her when class was over. She said Oh yes. After class I asked if I could put my hand on her shoulder. She agreed and I commanded healing in her shoulder and cast out pain. Then I had her move her arm. It moved quite easily and I asked about the pain. She said it was totally gone! Just some stiffness left. I asked if she was a believer and she said yes she was born again. I had her lay her own hand on her shoulder and command the stiffness to go in Jesus name. She did and it left. Then she asked for prayer for her knees. She had had both replaced and was still in some pain. I sat her down and had her lay her own hands on her knees and command the pain to leave. It did. Praise God!

I had a word of knowledge during praise and worship about arthritis in the hands. A number of people came forward. The first was in both hands. I cast out arthritis and commanded pain to go. It did. Then a man had issues with the tips of his fingers. God fixed it. Another had arthritis in other places, so we cast it out and all pain left. Then a woman asked for prayer in proxy for her mother with arthritis. We cast it out and commanded all pain to leave. Later a woman came forward with pain in her belly. I had one of the leaders bind and cast it out and then I commanded total healing from her head to her feet. All pain left. Thank you Jesus.

At a local food program I was able to pray for about 20 people. Most were blessings or general prayers for their health and prosperity. Prayed for a new heart for one woman, back pain for another, a man for back pain which left, another woman who was having trouble speaking and her voice came back to normal. Also had headache the result of issues in her brain that she has surgeries for. Pain left and we commanded her brain to be healed and for the numbness in the left side of her brain to be healed and for her short term memory to be restored. Thank you Jesus for the healing we witnessed this morning.

During lunch with some local seniors I was able to lay hands on a woman with back pain. She had back operations in the past and was in pain all the time. I laid my hand on her back and

bound and cast out the spirit of pain. She felt heat from my hand. The pain lessened. I had her husband, a believer, put his hand on her back and told him to simply say "In Jesus name all pain go. Thank you Jesus". After a minute he took his hand away and she said the pain was gone. About a half hour later after she had gotten up and walked a little she came back and sat down. She looked at me and happily exclaimed "All the pain is gone!" Praise God for healing her. I was also able to pray for her husband who had high blood pressure and heart issues. Believing with him that God has given him a new heart and that his blood pressure is normal for him.

At a healing service at a local church I was able to pray with at least eight or nine people. I lost count. The first lady had pain. She had some kind of planters something in her feet and a lot of pain in her feet. After commanding the pain to go and having her walk a little bit she was totally pain-free. Thank you, Jesus. The next lady I prayed for with was dealing with sciatica, arthritis, and a thyroid issue. I had her put her hand where the sciatica and I laid my hand on hers and commanded those issues out of her body, for all pain to go, in the name of Jesus. I had her walk a little bit and when she came back all pain was gone. I explained to her that Jesus just took the pain away and that know that he was also healing the thyroid issue. All in all it was a great night of healing as a number of us walked around and let the Holy Spirit lead us to those He wanted us to lay hands on. Thank you, Jesus.
