

Testimonies October-December 2018

Sherri had a word of knowledge about someone having a pain in the shoulder blade area on the right side. Sure enough, a woman did and Sherri commanded the pain to go and grew out her arms. All pain left.

I had given testimony about having a word of knowledge about a left hand, stiff with arthritis. The day I received the word I was able to pray with a man with that exact issue and he left pain free. At the end of my message where I gave testimony another man came forward with the same issue. I grabbed hold of his hand and commanded the stiffness to go and for any pain to leave and for the spirit of arthritis to go. And for any damage from arthritis to be restored in the name of Jesus. He could then clench his hand tightly and there was no more pain. Thank you, Jesus.

Went to someone's home to help with their computer. When I walked in an older woman was in a hospital bed watching television. They introduced me and the husband and I went in an adjacent room to work on the computer. His wife was in the final stages of Alzheimer's, he said. On the way out I asked if I could pray with them and asked if I could lay my hands on his wife. I did so and prayed for a sharp mind, for memories to return, and for peace in the home, in Jesus name.

Woman came to us as we were leaving a service with back pain. Sherri held her hands and we both placed hands on the small of her back. I commanded the muscles, ligaments, tendons, and nerves to be healed and for all pain to go. When we removed our hands, the pain was gone.

Sherri had a word of knowledge about someone with a heart problem. A woman came forward saying "that's me". She went down in the spirit receiving her healing.

Sherri went up to the front and had hands laid on her. She came skipping back with all pain gone

At a healing workshop we attended at a conference, we were asked if anyone had any metal in them. Sherri had titanium in her left shoulder. Hands were laid on her and the metal was taken out. She could no longer feel the screws that had been there! Yay God!

At breakfast we sat with a woman who asked for healing in her right ear. She could not hear with it. With permission I laid my hands on her ears and commanded the spirit of deafness out of her and for her hearing to be restored. When she tested it, she could hear out of both ears. Thank you Jesus.

At dinner we got to pray with a woman deaf in one ear and hard of hearing in the other. An autoimmune disease they say. Also skin condition, losing hair, arthritis, and more. I held her

hands and released the healing power of Jesus into her commanding total healing. Sherri stood behind her with her hands over both of the woman's ears. Tears began to pour out as the lord touched her. Thank you Jesus for her total healing.

Woman with wrist band. Told me she had arthritis and took the band off exposing a hard lump under it. I held her hand and commanded the spirit of arthritis to leave and for anything damaged to be restored. For all pain to leave in Jesus name. I took my hand off and her face lit up as she realized all pain was gone. And the knot was smaller. Praise Jesus.

Prayed for a woman with a knot on her neck over her thyroid. We commanded the knot to leave and for complete healing in her body. Thank you Jesus.

While waiting in line to vote early a woman in front of us had to sit down because of the pain in her back. I went over to her and asked if I could pray for her. She said yes and I asked where the pain was and if I could place my hand there. She said yes and I placed my hand in the small of her back and commanded the pain to go in the name of Jesus. For whatever was causing the pain to leave. Thank you Jesus. I asked her to get up and as she did her face told the story. All pain was gone and she said her back was hot. I explained that was holy spirit healing. We found that she was born again so I explained she had holy spirit in her too. If that pain tried to come back, tell it to go in Jesus name and it had to flee. Praise God.

Man with back pain and arm pain. Laid my Hand on his back and commanded pain out of his back and his entire body. Back pain left. Still had pain in his arms. Grew out his arms three inches and the pain almost all left. Had him hold both of his arms and told him to command the pain out. The pain left. Thank you Jesus.

Woman came forward with numbness in her right foot. Two women laid hands on her and we commanded her nerves healed and for the numbness to go. When they let go of her foot she spoke of the heat she was feeling. That is Holy Spirit we told her. She walked a few steps and some numbness was still there. They prayed again. Thank you Jesus for healing her.

A man testified that while we were praying for the woman his back was healed! Praise God. Thank you Jesus for your healing anointing.

Man with medical boot on. It seems he had surgery and parts of his foot amputated. Some pain. We commanded the pain to go and for restoration of the foot. Had him walk and the pain left. Explained to him how he has the authority and power to command pain to go. Praise God.

A woman with pain in her back. We prayed with her for her back with no success. Had her sit down and checked her legs. They were off an inch. We commanded the short leg to grow and for her back to be healed and for all pain to leave. She stood up and walked. All pain was gone. Then she told us both knees were bothering her. I placed hands on both knees and commanded

the muscles, ligaments, tendons, and nerves healed and for all pain to go. She stood and walked again without pain in the knees. Yay God.

Woman with neck pain. Put my hand on her neck and commanded stress to go. For muscles, ligaments, tendons, and nerves Healed. For pain to go, in Jesus name. When I removed my hand and had her move her neck all pain was gone.

Grew out a women's leg who is was in pain. In the name of Jesus we commanded the pain to leave. I had her stand and walk. The pain had left. Praise God.

Was with a person who badly burned their thumb. He was in a lot of pain. I asked if I could pray for it and he reluctantly said yes. He was afraid of my touching it. I wrapped my hand around it, gently. I commanded the pain to go and for the thumb to be healed with no damage. In Jesus name. He did not complain again and a hour later said it was fine. Yay God
