

## **Testimonies September 2019**

A woman asked for prayer for pain in her hip and back. I placed my hand on her left hip commanding all pain to go. Pain gone.

I prayed for a waitress at a restaurant. I told there were two kinds of waitresses there. Those that were saved and those that were about to be. She said she guessed she was about to be. I led her through a brief prayer asking Jesus into her heart. I left her with a gospel of John and a pamphlet about who she is in Christ.

A woman had a bone spur on her thumb. I held her thumb with my hand and commanded that spur to go. In the name of Jesus.

A woman's ears were blocked. I placed my fingers in her ears and commanded the blockage to go. And for no more vertigo. When I took my fingers out of her ears the blockage was gone. She then looked up to check the vertigo and there was no evidence at all. Praise God.

Man having surgery on the left shoulder tomorrow. Commanded healing and restoration and if surgery, for the doctors to be surrounded with angels as they accurately correct the issue. In the name of Jesus.

Prayed for a man with a collar bone in the process of healing. I laid hands on it and commanded the bone to knit together and for quick healing and no pain. In Jesus' name.

A Woman with heart problems. I asked her to place her hand over her heart and I commanded a creative miracle; a new heart. Thank you, Jesus.

A woman came forward with pain in her hip. We checked her legs and found one to be about an inch shorter than the other. Grew out her legs. Hip pain is gone.

Before I gave the message I had a word of knowledge about knee pain. I waited until we circled up in prayer and asked if anyone had an issue with their knees. A man stepped up and I commanded the pain to go and for his knee to be healed. He walked back and forth and declared that the pain was gone.

Someone had pain in their left ankle. We commanded her ankle healed in Jesus' name.

Some of the pain that left when prayed for at church had returned. I discovered that there were missing cartilage and arthritis involved. I placed my hand on his left knee and commanded a creative miracle of new cartilage and for the spirit of arthritis to leave and for all pain to go and not return. He walked back and forth about ten feet and as he was returning he told us all the pain had left. Praise God!

We were out running errands and looking for Yard Sale signs. Just before we got back home we saw another sign and it was only a few streets from our house. A woman had an assortment of items and as we talked we found out she was cleaning the house out because she did not expect to live much longer. She was diagnosed with stage four breast cancer. We were able to lay hands on her and cast out the spirit of cancer and command anything damaged to be restored. In Jesus' name!

After the service, we were outside and a woman came back and stopped in front. She was frantic. While the church service was going on someone went into her car and stole her wallet. She was beside herself. I prayed that whatever was rightfully hers be returned to her. I felt led to ask where she had parked and went to that location to see if they had thrown anything away. Then I thought "look in the dumpster". Sure enough, there it was. And her credit card and license. Just a little cash missing along with her checkbook. Thank you, Jesus, for a quick answer to prayer.

A man came in with a cane. He told us he had back problems, arthritis, scoliosis, and pain. I asked him to sit in a chair and checked his legs. One leg was shorter than the other. I commanded the legs to grow even, for his hips to be aligned, for his back to be straightened and strengthened, for the spirit of arthritis to go and for anything damaged by arthritis to be restored. For all pain to leave. I had him get up from the chair and walk across the room and return. All the pain was gone. Thank you, Jesus!
