

Testimonies June 2018

Prayed for a woman with a tumor in her brain at the back of her head and numbness in the left side of her face. Also being wakened in the night and not getting good sleep. Anxiety. Sherri and I prayed with her commanding healing in her body, for the tumor to be gone and for healing of all her brain cells, for the numbness to go and whatever is causing it. For her to be anxiety free and have uninterrupted night sleeps. We reminded her who she is in Christ and that she has the authority and power to tell these things to leave. Thank you Jesus!

Woman with pain from tailbone up through neck. Placed my hands on her neck and commanded in the name of Jesus for all muscles, ligaments, tendons, and nerves to be healed and for all pain to go. For the spirit of infirmity to go. All left. Praise God.

After church we went out to eat and met a woman with a car like ours in the parking lot. We ended up praying for her mother in proxy for a few serious issues. Then we were able to pray for her as well. Thank you Jesus for giving us opportunities everywhere our feet land.

Man with cancer spot near his right eye. Medical not taking care of it. We commanded it to fall off in the name of Jesus.

Man with wrist band. Had been shot with a BB gun. Was in pain. With permission I placed my hand on his and commanded healing and for all pain to go; muscles, ligaments, tendons, and nerves to be healed. He checked his hand and all pain was gone. Thank you Jesus.

Woman pain in chest. Commanded a strong heart. Pain to go. Asked about the pain and she said "what pain?" Explained that she has the authority to command it to leave if it comes back. Then prayed for a strong heart for a man sitting with her who recently had a heart operation. Thank you Jesus.

Man with pain in both feet. He was having difficulty walking. Quick prayer holding one of his ankles. Pain left and He was able to walk.

Woman for the spirit of blindness to go.

Man with symptoms of infirmity. Took authority over the spirit and told it to leave. For healing from the top of his head to the soles of his feet.

Woman with headache. Commanded it to leave. And for normal blood pressure. When I took my hand off her head the headache was gone. Thank you Jesus.

On the way into church I immediately noticed a woman with a black wristband. After service I went up to her and she told me her bones were deteriorating. I asked if I could pray with her. I laid my hand on her wrist and commanded full restoration of the bones and for whatever was causing the issue to be removed in the name of Jesus. For there to be no pain. Praise God.
