

# What God Has Done Through August 2014

Jan 2014--Due to Dianne's' needs, I was not able to get out to many meetings especially in the first three months until her passing on April 3rd. But here are a few of the many things God did as I let Him be that open door to be used by him.

While Dianne was in Hospice House she received many visitors. One man came every day to pray for her. He complained one day of allergies. He had never been bothered by them in the past. We prayed with him casting out that spirit and all symptoms left and never returned.

First ever Healing Service at a Methodist church in Port Charlotte. A young mother with scoliosis; legs grew out over an inch and for the first time in 30 years they were even. Has not had to wear her elevated shoe any more. And a man with bulging discs; all pain left after continuous prayer with my hand on his back.

In Monticello, KY at the House of Blessing one lady had ringing in her left ear. Word of knowledge also opened up something and she heard a pop as God restored hearing as well as the ringing in that ear.

Another woman had a mini-stroke a while ago and had constant headaches. Prayed for all damage to be restored and for a wedge between the blood vessels and nerves in her head. Headache left. Told me the following week that she had a great nights sleep for the first time in a long time and that she was no longer experiencing the headaches. Thank you Jesus!

A man that same day had arthritis causing him not to be able to raise his

right arm all the way up. Cast out the spirit of arthritis and laid hands on his shoulder. He was able to lift it high overhead.

Back in Florida after a church service I cast out arthritis from a man and commanded pain to go from his left hand. It left. Praise God.

Then at the YMCA I was led to lay hands on the instructor who was having issues with her left arm--swelling and aching. Three times and almost all of the ache let. PTL.

At a weekly Bible Discovery Group I got to lay hands on a woman who leads us in Praise and Worship with her guitar. She had arthritis issues with left hand making it hard to play. Finger straightened and pain left.

Back at the Methodist church, the Pastor testified that he no longer had to wear the brace after he received prayer (from a couple of us laying hands on his shoulder) last weekend. Yeah God!

Received a call from a BDG member one morning that she had injured her foot. Left toe swollen and red. Not able to walk on it. Had her place her hands on the toe and I prayed for her commanding healing over the phone. She was healed and back walking. Praise God!

After an evening of Praise and Worship on the beach in Florida one of the woman's knees were hurting. I laid hands on her knees and commanded the pain to go and for the knees to be healed. Pain left.

The next week, at the beach I was asked to pray for someone who as having pain in his right elbow. Laid hands on him and he was instantly healed. Praise God.

In Rhode Island I attended Church with my daughter's family. She introduced me to a woman with a young son who had fluid on his brain.

Doctors going in the next day to drain it. I was able to pray with him commanding the fluid to go. Doctors told her the next day that they were surprised at how little fluid they found. Praise Jesus.

Had lunch with a prayer partner of Dianne's in RI and was able to lay hands on her right shoulder for healing. It would hurt every night as she slept. Heard from her a day or so later by email. Here is what she said: Healed! Alleluia no more shoulder pain. Still being a bit cautious. But totally healed. Thank you Jesus for your faithful warrior Dick!!

Visited with Christian friends in KY. Good fellowship and was asked to pray for the wife. Her leg grew out and all pain left. Thank you Jesus.

Ministered at church on a Sunday in August. Grew out a woman's legs and cast out sciatica. Pain left. Then cast arthritis out of a man who had pain on his right arm. All pain left. After church was over a man came in and when I went over to shake his hand he offered this left. Said he had arthritis all over and could not use his right. You guessed it. We cast out the arthritis and pain. His feeling came back and he was able to shake hands.

Served lunch at the House of Blessing and was able to pray for over a dozen people. One person had arthritis in her back and other places. The pain was in the back. I cast out arthritis and commanded pain to leave. It left all over her body. Praise Jesus!

Another lady had burning in the bottom of her feet until we prayed. Another had headaches and God released her from them. One lady is due for eye surgery in about a week if her blood pressure comes down, so we prayed for her heart and her blood pressure.

Later that day I met a lady who had had a headache all day. God removed it with a short prayer.

Served again at the House of Blessing. One man had me pray for his prostrate. He was having pain and bleeding. He reported that the pain was gone and there was not any more bleeding. Thank you Jesus. A lady I had prayed with for back pain and arthritis reported that all was good. Praise God.

Preached at another church in Monticello during the week. Gave a simple message about salvation, righteousness, and a bit on Ephesians 1. Probably about 20 in attendance. I believe that they all came forward for prayer. And He healed them all. A man came forward with arthritic pain all over and back pain. God grew out his leg and healed his back. Then he cast out the spirit of arthritis and removed all the stiffness in his hands. He was in tears as he was testifying to what God had just done. The pastor's wife had neck pain and God removed every bit of it. Her face lit up and she yelled out that it was all gone. He put in new hearts, pancreas, lowered blood pressure, removed a knot on someones foot, healed headaches, and more.

Served at the House of Blessings again on Friday morning. One of the workers, a woman, was talking to another worker about her shoulder pain. I got to talk with her later and found out she had arthritis and could not move her shoulders very far. No pain. Just some uncomfortableness and lack of full motion. When we were done talking, I prayed with her growing out her arms and casting out arthritis. When finished God had healed her shoulders and she had full range of motion and no discomfort. Praise Jesus.

Served at the House of Blessing on Monday morning. Was able to pray with many. A man was having hip pain. I prayed for him and then had him stand up and walk. He was amazed at what God had done. All pain was gone. Another man was having problem swallowing. He was also diagnosed with COPD. After prayer the lungs were clear and he could

swallow fine. Was sitting with a couple of men and one turned to the other and told him that he should have me pray for his arthritis. I had prayed for him weeks ago and he has no more pain. I did, and the man's hands were pain free.

Talked with a young couple working through marriage issues. They were open to council and listening intently. I prayed with her for her sick mother and for him for pain in his hands, carpal tunnel I believe. Pain gone.

Served at the House of Blessing on Tuesday morning. Less help today so I spent most of the time serving. Did get to pray with a few people. One for favor with a job interview today and another to lower blood pressure.

Served at the House of Blessings again on Thursday morning. Busy serving, but I got to sit down with a number of the customers and chat. One asked for prayer for her husband who is scheduled for a Colonoscopy. Prayed for him in proxy.

Then a worker asked if God was moving in healing today. I asked her what was wrong. Turns out I had prayed with her a while back for tendonitis in her left ear. It went almost totally back then but has returned. I prayed again repeatedly today and it was greatly lessened. Then we talked about prayer and that she has the Holy Spirit in her and He has the authority and power to take the ringing away. I taught her how to command in Jesus name herself. She did it then and most of the rest of the ringing went away.

I then sat down with a new customer and asked if she needed prayer. She said she did for a meeting about her disability tomorrow morning. I prayed with her for God's favor on that situation. Then I asked if she had ever asked Jesus into her heart. Short story was no and she accepted Him as her Lord and Savior. Lined her up with a local person and got her a Bible to go home with. Praise God!

On Friday morning I was asked to do the devotional and I read and expounded on parts of 1 Corinthians 1. I was blessed. After serving the meals I noticed a woman rubbing her stomach area and asked if she was in pain. She was and I prayed for her until all the pain had left. Thank you Jesus!

Before I left KY a man I had prayed for a week ago said some of the pain had returned to his hands. As I prayed again his body jerked. I cast out satan and commanded the pain and underlying cause to be gone. All the pain left. Praise the Lord.

Worked the House of Blessings on Monday. Another pastor did the devotional and I closed with a prayer and blessing of the food. He and I served the first round of customers and then other volunteers arrived. I was able to sit down and eat a meal with them. I was able to pray with one woman who had pain in her neck and her husband for pain in his right hip. Thank you Father for taking all their pain away!

Received a phone call on Monday evening from a lady with a migraine. Had it all day. I had her put her hand on her head and commanded healing. She awoke after a good nights sleep with no more headache. Thank you Jesus!

Served at the house again on Tuesday and was able to pray for a number of customers. One of the workers told me her knee has not bothered her at all since I prayed for her a while ago at church. Another worker mentioned dealing with arthritis. We cast out that spirit and commanded healing of all damaged areas and all stiffness to go. Had her stretch and she noticed a big difference. Then I sat down with a girl and her husband. She was in a wheelchair and was suffering from many issues including arthritis. I cast it out and commanded all pain to go and for swelling to be

reduced. Prayed multiple times for pain in right wrist. It lessened a little, but she kept claiming the pain. Waiting on God to do a work in her.

Was able to pray for a friend on Wednesday that has been in a wheelchair while her left foot was healing. Doctor just issued her a brace to replace the boot she has been wearing. But when she put on the brace and moved her toes she was getting lots of pain. And she was speaking about arthritis which the Lord removed a couple of years ago. I talked about that and cast it out. Commanded the pain to go. She went and put on her brace and had little pain. Prayed again and all the pain left. Thank you Jesus!

Back at the house on Thursday to serve lunch. Prayed for many. One of the workers had pain for a long time in her neck and knees. She could not move her neck back and forth without pain nor do deep knee bends. After commanding healing in her knees, casting out that arthritis she was confessing, and doing the neck thing, all pain left and she was able to move her head in all directions and do deep knee bends. Through tearful eyes she praised Jesus.

Later I prayed with man who was experiencing right hip pain and right knee pain gone after prayer. He too was claiming arthritis so we cast that out as well.

Attended the New Covenant Fellowship church in Monticello on Thursday evening and was able to preach a message I called Reach for God. During ministry time many came forward and were prayed for. One man came with almost total loss of hearing in both ears. God restored his hearing after a spirit of deafness was cast out. Another man had five discs with issues a lots of back pain. Thank you Jesus all his pain left. A woman had pain all over and even had trouble walking. Pain left and she was walking painless out of church. Praise God.

Worked the House of Blessings this morning to serve breakfast. Was able to pray with many again. One I had prayed for yesterday for his back. He asked me to lay my hands on his back again and felt heat as the Holy Spirit ministered to him. I prayed for his wife's back and nerves in her neck. Then I instructed her on how to lay hands on Robert and pray of him. He felt the heat from her touch as well.

After we closed I sat with one of the workers to teach her some truths about healing. When we sat down she told me of an issue she has been having with the fingers in her left hand- numbness and lack of feeling. I commanded healing of the nerves and she felt a little difference. She was ready to move on feeling that she got what was there and that the healing would come over time. I spoke against that and prayed again and just held her fingers for the next 15-20 minutes as I taught. She stopped me at one point and exclaimed that her fingers were totally healed! Praise God. All we need is Jesus. The anointing breaks the yoke. Thank you Jesus.

Back at the house on Saturday morning. Had a lot of young girls from the Jr High dance team in serving today. I was busy handing the food to them to deliver. At the end I did get to pray with a number of people. One lady, I see every day and when I came around and asked if she need anything she told me she had a pain in her left forearm for a couple of days and when she got up this morning she felt she needed to ask me to pray for it. I did and Jesus healed her instantly.

Another woman asked for prayer for her son who is going through a divorce and has been contemplating suicide. We prayed for him. And another lady wanted prayer for her daughter. A man we prayed for over the last week numerous times for a back issue came in this morning with a big smile and absolutely no pain. Praise Jesus.

Served at the House of Blessings on Sunday late afternoon and was able to pray with a few. The man whose back was healed said his back was

doing fine but he needed prayer for his right knee. I laid my hands on it and commanded healing. He got up, walked, and told me he no longer had any pain. Thank you Jesus!
